Armed Forces Veterans crack entrepreneur success code!

Success From Being Mad is about ten Karma Yogi Mad Veterans of the Indian armed forces who have roaringly explored the uncharted terrain on the entrepreneur street. Is there a method in their madness, the strategy they adopted, availability of a support structure, a common formula for success achieved... Or is it just that Mad Vet sixth sense of a lifetime which they earlier trusted their life with and are now willing to bet on commercially? The book explores all of this and more. You have to be crazy living atop a pile of kerosene-filled jerry cans, placed above ammunition stacks, at heights over 20,000 feet... You have to be mad driving a 40-ton tracked monster, in the dead of a pitch-dark night, with all headlights off... You have to be mad to bet your life savings in undertaking entrepreneur ventures, you have no expertise in or knowledge of, at middle age, and come out roaring with success.

Revue de L'ingénierie

When firefighters and emergency medical technicians prepare their resume and other materials needed to explore employment opportunities, they realize that they have a unique background. At last there is a resume book that shows firefighters how to best present their qualifications, credentials, licenses, experience, volunteer work, education and training, affiliations, and other information. Would-be firefighters as well as experienced firefighting professionals will find outstanding samples of resumes and cover letters that worked for real people in their field. A special section of the book shows firefighters how to apply for government jobs and how to write the specialized resumes needed to apply for federal employment. As part of that section on the federal hiring process, the book shows how to write KSAs (statements describing Knowledge, Skills, and Abilities). This is a highly specialized title for a highly specialized field and for the very special people in that field.
