City Maps Agra India Footprint Travel Guides

This book is an introduction to a new branch of archaeology that scrutinises landscapes to find evidence of past human activity. Such evidence can be hard to detect at ground-level, but may be visible in remote sensing (RS) imagery from aerial platforms and satellites. Drawing on

examples from around the world as well as from her own research work on archaeological sites in India (including Nalanda, Agra, Srirangapatna, Talakadu, and Mahabalipuram), the author presents a systematic process for integrating this information with historical spatial records such as old maps, paintings, and field surveys using Geographic Information Systems (GIS) to gain new insights into our past. Further, the book highlights several instances where these insights are actionable -- they have been used to

identify, understand, conserve, and protect the fragile remnants of our past. This book will be of particular interest not only to researchers in archaeology, history, art history, and allied fields, but to governmental and non-governmental professionals working in cultural heritage protection and conservation.

I Asked A Young Man In A Ghetto In Agra If He Had Ever Seen The Taj Mahal. Taj Mahal? He Said. I Haven T Seen It, But Yes, I Have Heard Of It. It Is In Delhi. Agra Has More Than Mere Mention In The Hindu Scriptures. And The City S Position Of Strategic Importance Astride Important Trade Routes Historically Attracted Empire-Builders Ranging From The Lodhis And The Mughals To The British. Now, Says

Royina Grewal, Agra Has Fallen Prey To A Lassitude That Has Caused Large Swathes Of The Once Magnificent Capital Of Emperors Akbar, Jahangir And Shah Jahan To Succumb To Decay And Haphazard Development. Delving Into Myth And History, Drawing Deep Conclusions From Her Lengthy Conversations With Varied Citizens Of Multi-Cultural Agra, Grewal Weaves Grand Strands From The Past With The Humbler Textures Of Present-Day Agra To Explain Why The Home Of The World S Best-Known Monument Has Been Allowed To Disintegrate, And Why The Once Mighty Yamuna Is Merely A Stream Of Sludge. But There Is Hope, Says Grewal. Drawing Inspiration From The Many Enlightened Individuals She Met On Her Peregrinations In And Around Agra, She Points To Ways In Which The City Can Be Saved. In The Shadow Of The Taj May Be A Map Of The City S History, But It Can Also Be A Drawing Board That Offers Insights For A Sustainable Future.

India is undergoing massive urbanization. The future form of Indian cities in terms of urban planning and design is most urgent. A study of the key historical moments from the point of view of urban

development is thus important. With case studies from the time cities originated in the Indian subcontinent and hand-drawn illustrations of these cities till the ones in recent times, the author discusses the last two hundred years of urban development in India with emphasis on the overall structure of the city, its nature of public places, institutions, and housing.
