By any standard, this is a classic of Christian theology. Composed by St. Athanasius in the fourth century, it expounds with simplicity the theological vision defended at the councils of Nicaea and Constantinople: that the Son of God himself became "fully human, so that we

might become god." Its influence on all Christian theology thereafter, East and West, ensures its place as one of the few "must read" books of Christian theology for all time.

"Jesus became what we are, so that we might become what He is"--St Athanasius. These wise words form the basis of this book. As well as St. Athanasius' amazing mind, the foundation of this book, is to show readers what Jesus is like - and how we should behave. Every section has a scripture verse to learn, along with a brief explanation on taught truths: humility, purity, generosity and respect. Labelled as the "Father of Orthodoxy", St. Athanasius' defence of the Christology, described in the first chapter of St. John's Holy Gospel; further exemplifies how Christian principles became eternal, life-changing values in this current Era. It is the hope that learning about the incarnation of God, will inspire readers to develop a living,

vital and honest relationship with God. Such an outcome, opens the door for people to grow deeper in knowledge; and thereby love, for the One who is always good - God. --

Not illustrated. 1885 edition. Excerpt: ... this is no small proof, or rather an evident warrant, that it is despised by all Christ's disciples, and that they all take the aggressive against it and no longer fear it; but by the sign of the Cross and by faith in Christ tread it down as dead. 2. For of old, before the divine sojourn of

the Saviour took place, even to the saints death was terrible,<sup>1</sup> and all wept for the dead as though they perished. But now that the Saviour has raised his body death is no longer terrible; for all who believe in Christ tread him under as nought, and choose rather to die than to deny their faith in Christ. For they verily know that when they die they are not destroyed, but actually begin to live, and become incorruptible through the Resurrection. 3. And that devil that once maliciously exulted in death, now that its<sup>1</sup> pains were loosed, remained the only one truly dead. And a proof of this is, that before men believe Christ, they see in death an object of terror and play the coward before him. But when they are gone over to Christ's faith and teaching, their contempt for death is so

great that they even eagerly rush upon it, and become witnesses for the Resurrection the Saviour has accomplished against it. For while still tender in years they make haste to die, and not men only, but women also, exercise themselves by bodily discipline against it. So weak has he become, that even women who were formerly deceived by him, now mock at him as dead and paralyzed. 4. For as when a tyrant has been defeated by a real king, and bound hand and foot, then all that pass by laugh him to scorn, buffeting and reviling him, no longer fearing his fury and barbarity, because of the king who has conquered him; so also, death having been conquered and exposed by the Saviour...

Saint Athanasius is also known as Saint Athanasius of Alexandria, Saint Athanasius the Great and Saint Athanasius the Confessor. He was the twentieth bishop of Alexandria. He was a Christian theologian, Church Father and the defender of Trinitarianism against Arianism. Gregory of Nazianzus called him the "Pillar of the Church," shortly after his death in 2nd May 373. He is one of the four great Eastern Doctors of the Church. In this book, Saint Athanasius defends the Church's teaching against heresies of the Incarnation of the Word. Many of these heresies has reappeared throughout the history. Thus this book remains relevant to the modern world.

Athanasius was born in the later half of AD 299 and died in AD 373. During this time, in 325, one of the most important Church meetings in history took place (second probably only to the Jerusalem Council). Convened by Constantine, the Council of Nicaea's primary task was seeking unity in all Christendom on the nature of the person of Jesus and his relation to the Father. While we mostly

take it for granted today, most of what is now considered orthodox Christian doctrine were once items up for debate. At the council of Nicaea there were two views on the person of Christ being debated. The first was that of Arius, who believed that the Son was a created creature, albeit the first created, and not God. This makes sense if Jesus is "the Son" he must then come after the father. Colossians calls him the "firstborn of all creation." Arius argued that the Son was created from nothing and then he was the creator of all other things. This made him a finite being as well as a being capable of wrong. The second view, and the one the council decided on, was that of St. Alexander, Bishop of Alexandria. Alexander argued that the Father's attributes are eternal, even his

fatherhood and so he has always had the Son with him. Technically, he said the son was “begotten” and not created. Begotten of the same substance as the Father. This meant he was God and equal with the Father. Alexander had assistants at the council, the most notable of which was a 26 year old deacon by the name of Athanasius. Athanasius would spend the rest of his life fighting the Arian heresy. He did this most notably through his work *On the Incarnation*. *On the Incarnation* is the second half of a two part treatise and in it Athanasius covers creation, the fall, and the incarnation and resurrection as well as some refutations to common objections from Jews and Greeks regarding the Son, or as he calls him, the “God Word.”

**On the Incarnation of the Word of God** Legare Street Press

Athanasius stood *contra mundum* ("against the world") in defense of the biblical doctrine of Christ. He opposed Arius when it seemed all the world would follow Arius's heresy. Athanasius's work remains even today one of the definitive statements of orthodox Trinitarianism. *The Incarnation of the Word of God* CCEL *On the Incarnation* contains the reflections of Athanasius of Alexandria, upon the subjects of Christ, His purpose on Earth, and the nature of the Holy Spirit. This work was composed partly to explain Athanasius's thoughts on Jesus Christ and the nature of the Holy Spirit, and partly to refute the views of Arius, a rival deacon within the Egyptian church. According to Athanasius, God arrived on

Earth as Christ to show humans a pure example of divinity - through this illustration, humans may themselves aspire to immortality. Written sometime prior to 319 A.D., this text by Athanasius is cited as one of the most influential of early Christianity. As the Pope of the Coptic Christians of Egypt, Athanasius was both renowned by his fellow early Christians and reviled by the ruling Roman Empire who sought to exile him numerous times. His church considered these writings valuable, preserving and passing on the teachings for future Christian generations. This translation in this edition was accomplished by Sister Penelope Lawson, a nun who spent her entire life in study of various ancient Christian texts. Since originally appearing in 1944, Lawson's translation

has been applauded as an authentic presentation of Athanasius's thoughts in English.

#### *On the Incarnation*

*On the Incarnation* is one of the early works of Athanasius of Alexandria, Christian theologian and a Church Father. This theological treatise presents teachings on the redemption. Author puts forward the belief that the Son of God, the eternal Word (Logos) through whom God created the world, entered that world in human form to lead men back into the harmony from which they had earlier fallen away.

#### **Athanasius de Incarnatione. St. Athanasius on the Incarnation, Tr. by A. Robertson**

As one of history's most passionate defenders of Christian doctrine, Saint

Athanasius is notable for his apologist essays and their substantial contribution to early Orthodox theology. As a bishop serving in fourth century Alexandria, Athanasius composed this essay in his early life and devoted it to a number of issues still debated by theologians today, including monotheism, spiritual salvation, and the divine nature of Jesus Christ.

St. Athanasius on the Incarnation  
(Classic Reprint)

Two names stand above all others in the history of the early Christian church: Augustine and Athanasius. The former was from the West and contended for the doctrine of grace against Roman moralism, while the latter came from the East and became a champion of orthodoxy against Arian attacks on the

doctrine of the Trinity. On the Incarnation was Athanasius' second apologetic work, and in it he defends the Christian faith and tries to convince Jews and Greeks that Jesus was not a prophet or teacher but the Christ, the divine incarnation of God's Word. You may find yourself reading Athanasius and thinking that the divine incarnation of Jesus is an obvious point, only to realize that, at some point, it wasn't so obvious. Three hundred years after Jesus ascended to heaven, the Council of Nicaea was still trying to figure out exactly who Jesus was. Through his presence at the Council of Nicaea as an assistant to Alexander and his work in this writing, Athanasius helped early Christianity—indeed all Christianity—to understand something more of the mystery of our faith: God

was manifested in the flesh. All Christians, directly or indirectly, have been influenced by Athanasius because of his foundational insistence of who Jesus is. There is perhaps no other Christian writing in which the coming of our Savior is proclaimed so clearly as the way of victory over death. Thanks to Athanasius, and so many other early Christian thinkers, we have a firmer

footing in our own exploration and understanding of who God is and how He works.
