Professor Whitehead has provided a new translation of the five surviving forensic speeches of the Athenian lawyer-politician Hypereides (390/89-322 BC). Hypereides' importance lies not only in his speeches, but also in his centrality in the political life of ancient Athens, as a contemporary of Demosthenes, and one of the canonical Ten Attic Orators. This book, which includes a

general introduction and lavish historical and literary commentary, represents the first complete collection of Hypereides' works in any language.

Lance Loud came to represent the gay community, and in addition, embodied the creative spirit and genius of outsider status that became the 1980s and fuelled so much of what has evolved today in our culture in terms of art, music and literature. In 2003, PBS broadcast the program, Lance Loud: A Death in an American Family, which was filmed in 2001 while visiting the family again, at the invitation of Lance before his death at age 50. As seen here, short as Lance's life was, it was a monumental one that continues to resonate to the present day.

"J.M.W. Turner (1775-1851) is widely regarded as the greatest painter Britain has ever produced. Despite the many books and exhibitions that have been devoted to him, there is one aspect of his extraordinary oeuvre that has never been thoroughly examined. Uniquely in the history of European art, he took on all comers, past and present, that he considered worthy of a challenge, creating his own images in their styles. These works were both acts of homage and a sophisticated form of art criticism, demonstrating his understanding of great art and his ability to equal or better the most celebrated exponents of the landscape tradition. No artist, however revered, was considered beyond challenge. This unique habit is clearly a key to understanding Turner's art, yet the issue is one that has so far never been thoroughly addressed on Turner and on British art of the 18th and 19th centuries. In "Turner and the Masters" leading authorities explore this fascinating aspect of his career, revealing new detail on the debts and rivalries that shaped his work in often unexpected ways. Accompanying a major touring exhibition that brings together works by Turner with masterpieces by Claude, Canaletto, Ruisdael, Van de Velde, Poussin, Rubens and Rembrandt, as well as by Turner's contemporaries including Constable and Bonnington, this book firmly positions Turner in the company of the greatest painters of all time. The contributors include Guillaume Faroult, Sarah Monks, Martin Myrone, Kathleen Nicholson, Philippa Simpson and Ian Warrell." --Book Jacket.

Can there be more than one reality at a time, and can we experience them both? These were the questions that led photographer and former psychology professor Allan I. Teger to create this collection of black and white Bodyscapes(R). At first glance, Bodyscapes appear to be landscapes; a second look shows that they are in fact nude bodies with small toys and miniatures set on them. Spanning a 35-year period, this collection shows more than 110 black and white images photographed in a single exposure without any post processing or manipulation. The body becomes the setting for golfing, skiing, mountain climbing, surfing, and other sports. Other images feature landscapes ranging from rolling farmlands to beaches and outer space. They are fun, beautiful, and sensual, but always in good taste. This

elegant portfolio of Teger's images is an ideal, reality-bending addition to any art photography library.
