 This new kind of dictionary reflects the use of "rhythm rhymes" by rappers, poets, and songwriters of today. Users can look up words to find collections of words that have the same rhythm as the original and are useable in ways that are familiar to us in everything from vers libre poetry to the lyrics and music of Bob Dylan and hip hop groups.  
**The Routledge International Handbook of Mad Studies** Bloomsbury Publishing  
 A history of sequence dancing from the Victorian era to the present day. More than 3000 dances are woven into a historical narrative. The three main sections cover dances up to 1945, from 1946 to 1974 and from 1975 onwards. There are comments on many of the dances and minibiographies of important people in the sequence dancing world.

 The *Mirour de l'Omme* (The Mirror of Mankind) is an encyclopedia of moral topics, including a vivid allegory of the Seven Deadly Sins. Author John Gower (1330-1408) was a poet, personal friend of Chaucer, and the most prominent member of his literary circle.  
*Feeling Exclusion* Infobase Publishing  
 As a guide to the theory and practice of modern and old time sequence dancing, this book aims to answer some of the questions asked by newcomers and more experienced dancers. The aim is not so much to teach dancing but rather to aid the instructor by providing material that can be studied away from the dance floor.

*Feeling Exclusion: Religious Conflict, Exile and Emotions in Early Modern Europe* investigates the emotional experience of exclusion at the heart of the religious life of persecuted and exiled individuals and communities in early modern Europe. Between the late fifteenth and early eighteenth centuries an unprecedented number of people in Europe were forced to flee their native lands and live in a state of physical or internal exile

as a result of religious conflict and upheaval. Drawing on new insights from history of emotions methodologies, *Feeling Exclusion* explores the complex relationships between communities in exile, the homelands from which they fled or were exiled, and those from whom they sought physical or psychological assistance. It examines the various coping strategies religious refugees developed to deal with their marginalization and exclusion, and investigates the strategies deployed in various media to generate feelings of exclusion through models of social difference, that questioned the loyalty, values, and trust of "others". Accessibly written, divided into three thematic parts, and enhanced by a variety of illustrations, *Feeling Exclusion* is perfect for students and researchers of early modern emotions and religion.

**Pierre Key's Music Year Book** Cavendish Square Publishing  
 This book explores the frightening ways our prisons mirror the worst aspects of society-wide gender relations. It is part of the growing research on men and masculinities. The collection is unusual in that it combines contributions from activists, academics, and prisoners. The opening section, which features an essay by Angela Davis, focuses on the historical roots of the prison system, cultural practices surrounding gender and punishment, and the current expansion of corrections into the "prison-industrial complex." The next section examines the dominant or subservient roles that men play in prison and the connections between this hierarchy and male violence. Another section looks at the spectrum of intimate relationships behind bars, from rape to friendship, and another at physical and mental health. The last section is about efforts to reform prisons and prison masculinities, including support groups for men. It features an essay about prospects for post-release success in the community written by a man who, after doing time in Soledad and San Quentin, went on to get a doctorate in counseling. The contributions from prisoners include an essay on enforced celibacy by Mumia Abu-Jamal, as well as fiction and poetry on prison health policy, violence, and intimacy. The creative contributions were selected from the more than 200 submissions received from prisoners. Author note: Don Sabo, Professor of Social Sciences at D'Youville College in Buffalo, is author or editor of five books, most recently, with David Gordon, *Men's Health and Illness: Gender, Power, and the Body* and, with Michael Messner, *Sex, Violence, and Power in Sports: Rethinking Masculinity*. Sabo has appeared on *The Today Show*, *Oprah*, and *Donahue*. Terry A. Kupers, M.D., a psychiatrist, teaches at the Wright Institute in Berkeley. He is the author of four books, editor of a fifth. His latest books are *Prison Madness: The Mental Health Crisis Behind Bars* and *What We Must Do About It and Revisioning Men's Lives: Gender, Intimacy, and Power*. Kupers has served as an expert

witness in more than a dozen cases on conditions of confinement and mental health services. Willie London, a published poet, is General Editor of the prison publication *Elite Expressions*. He is currently an inmate at Eastern Corrections. For nine years he was a prisoner at Attica.

 Taken in conjunction with my Sanskrit Drama, published in 1924, this work covers the field of Classical Sanskrit Literature, as opposed to the Vedic Literature, the epics, and the Puranas. To bring the subject-matter within the limits of a single volume has rendered it necessary to treat the scientific literature briefly, and to avoid discussions of its subject-matter which appertain rather to the historian of grammar, philosophy, law, medicine, astronomy, or mathematics, than to the literary historian. This mode of treatment has rendered it possible, for the first time in any treatise in English on Sanskrit Literature, to pay due attention to the literary qualities of the Kavya. Though it was to Englishmen, such as Sir William Jones and H. T. Colebrooke, that our earliest knowledge of Sanskrit poetry was due, no English poet shared Goethe's marvellous appreciation of the merits of works known to him only through the distorting medium of translations, and attention in England has usually been limited to the Vedic literature, as a source for comparative philology, the history of religion, or Indo-European antiquities; to the mysticism and monism of Sanskrit philosophy; and to the fables and fairy-tales in their relations to western parallels. The neglect of Sanskrit Kavya is doubtless natural. The great poets of India wrote for audiences of experts; they were masters of the learning of their day, long trained in the use of language, and they aim to please by subtlety, not simplicity of effect. They had at their disposal a singularly beautiful speech, and they commanded elaborate and most effective metres. Under these circumstances it was inevitable that their works should be difficult, but of those who on that score pass them by it may fairly be said *ardua dum metuunt amittunt vera viai*. It is in the great writers of Kavya along, headed by Kalidasa, that we find depth of feeling for life and nature matched with perfection of expression and rhythm. The Kavya literature includes some of the great poetry of the world, but it can never expect to attain wide popularity in the West, for it is essentially untranslatable. German poets like Ruckert can, indeed, base excellent work on Sanskrit originals, but the effects produced are achieved by wholly different means, while English efforts at verse translations fall invariably below a tolerable mediocrity, their diffuse tepidity contrasting painfully with the brilliant condensation of style, the elegance of metre, and the close adaptation of sound to sense of the originals. I have, therefore, as in my Sanskrit Drama, illustrated the merits of the poets by Sanskrit extracts, adding merely a literal English version,

in which no note is taken of variations of text or renderings. To save space I have in the main dealt only with works earlier than A.D. 1200, though especially in the case of the scientific literature important books of later date are briefly noticed. This book was sent in completed for the press, in January 1926 but pressure of work at the University Press precluded printing until the summer of 1927, when it was deemed best, in order not to delay progress, to assign to this preface the notice of such new discoveries and theories of 1926 and 1927 as might have permanent interest.

In 1930s Bucharest, some of the country's most brilliant young intellectuals converged to form the Criterion Association. Bound by friendship and the dream of a new, modern Romania, their members included historian Mircea Eliade, critic Petru Comarnescu, Jewish playwright Mihail Sebastian and a host of other philosophers and artists. Together, they built a vibrant cultural scene that flourished for a few short years, before fascism and scandal splintered their ranks. Cristina A. Bejan asks how the far-right Iron Guard came to eclipse the appeal of liberalism for so many of Romania's intellectual elite, drawing on diaries, memoirs and other writings to examine the collision of culture and extremism in the interwar years. The first English-language study of Criterion and the most thorough to date in any language, this book grapples with the complexities of Romanian intellectual life in the moments before collapse.

*Mirour de L'Omme* Hurst & Company

"Although parts of the Western world now appear almost totally secularised, Christianity remains the most potent worldview on earth alongside Islam. In this compelling book, Rupert Shortt gracefully argues that Christianity is a much more coherent, progressive body of belief philosophically, scientifically and culturally than often supposed by its critics. Alert to the menace posed by religious fundamentalism, as well as to secularist blind spots, he shows how a self-critical faith is of huge consequence to wider human flourishing, including through promoting peace and environmental sustainability"-- Publisher description.

The story of the Waldenses is one of the greatest spiritual sagas the world has ever known, yet few people have heard of them. Their story deserves to be told because, in spite of terrible persecution, their heritage is still alive and well today. They were devout Christians who tried to follow the original teachings of Jesus to the best of their abilities. The Church had different views and opposed them, including the Waldenses' efforts to translate the Bible out of Latin so that common people could read it. This book tells of their struggle to survive against a much larger and more powerful foe. It is told from the Waldenses' point of view, despite the previous belief that all we had known about them was written by their enemies.

What happens to politics when it takes the form of theatre? How has theatre both exploited and undermined politics both in society and on the stage? Theatre & Politics explores the complex relationship between theatre and politics, questioning some of the assumptions that often arise when they are brought together. Challenging ideas about 'entertainment' and 'communication', the book draws on a broad range of key writing from Plato to Rancière, and theatrical examples from Shakespeare and his adaptors through Peter Handke to Debbie Tucker Green.

By drawing broadly on international thinking and experience, this book offers a critical exploration of Mad Studies and advances its theory and practice. Comprised of 34 chapters written by international leading experts, activists and academics, this handbook introduces and advances Mad Studies, as well as exploring resistance and criticism, and clarifying its history, ideas, what it is, and what it can offer. It presents examples of mad studies in action, covering initiatives that have been taken, their achievements and what can be learned from them. In addition to sharing research findings and evidence, the book offers examples and insights for advancing understandings of experiences of madness and distress from the perspectives of those who have (had) those experiences, and also explores ways of supporting people oppressed by conventional understandings and systems. This book will be of interest to all scholars and students of Mad Studies, disability studies, sociology, socio-legal studies, mental

health and medicine more generally.

In his work, Rabbi Newman documents the struggle between Christianity and Judaism. The Rabbi also includes information on Jewish Influence in fomenting the Protestant revolt against the Catholic Church, which led to the freeing of Jews from Church strictures and mainstreaming them into the political and social life of Christendom, particularly in Protestant countries. Newman even takes up the topic of Jewish influence in Puritan New England. All in all, this is an important book for those wishing to understand the mutual antipathies which have beset Christians and Jews.
