## NICHOLSON JILLIAN

*What a Fish Knows* Legendary Comics

This is the Book of the Century! At LAST someone - this time a basic research scientist - has come forth with proof of cataclysms, which are worldwide supersonic inundations such as Noah's flood. They were discovered by great men such as Andre DeLuc, Baron Georges Cuvier and Guy de Dolomieu, and have remained unsolved mysteries ever since. Now the author takes you through thrilling solutions of finding the process of catclysms, their timetable, and the derivation of trigger, a 20-year search. Truly, CATACLYSMS LEAVE NO ONE UNTOUCHED! He describes the next cataclysm in awesome detail plus the deterioration of civilization and the escalation of crime before the next cataclysm. It just so happens that the author's scientific prediction of the next cataclysm agrees with clairvoyants Nostradamus', Cayce's, and Scallion's predictions. Never before have facts been presented in such a spine-tingling, inspiring fashion; and never have so many secrets been unlocked in one book. This is the most stirring subject, written in the most intriguing, engrossing, and exciting style ever. You will remember this exceptional book for years! These scholars are grappling with some of the enormous challenges that will face humanity if an information-rich signal emanating from another world is detected. By drawing on issues at the core of contemporary archaeology and anthropology, we can be much better prepared for contact with an extraterrestrial civilization, should that day ever come.

Larry Niven created his popular "Magic Goes Away" universe in 1967, and it has been a source of delight and inspiration ever since. By asking the simple question, What if magic were a finite resource?, Niven brought to life a mesmerizing world of wonder and loss, of hope and despair. The success of his first story collection, "The Magic Goes Away," birthed two sequel anthologies, "The Magic May Return" and "More Magic." All three volumes are collected here for the first time, with stories by Niven himself, as well as contributions by such luminaries of fantasy as Roger Zelazny, Fred Saberhagen, Steven Barnes, and Poul Anderson. Featuring a brand-new introduction by Larry Niven, "The Magic Goes Away Collection" gives readers insight into the breathtaking world of Niven and Jerry Pournelle's "The Burning City" and "Burning Tower" and stands on its own as a landmark in fantasy fiction
