A woman uncovers earth-shattering secrets about her husband's family in this chilling page-turner from New York Times bestselling author Heather Gudenkauf. Sarah Quinlan's husband, Jack, has been haunted for decades by the untimely death of his mother when he was just a teenager, her body found in the cellar of their family farm, the circumstances a mystery. The case rocked the small farm town of Penny Gate, Iowa, where Jack was raised, and for years Jack avoided returning home. But when his beloved aunt Julia is in an accident, hospitalized in a coma, Jack and Sarah are forced to confront the past that they have long evaded. Upon arriving in Penny Gate, Sarah and Jack are welcomed by the family Jack left behind all those years ago—barely a trace of the wounds that had once devastated them all. But as facts about Julia's accident begin to surface, Sarah realizes that nothing about the Quinlans is what it seems. Caught in a flurry of unanswered questions, Sarah dives deep into the puzzling rabbit hole of Jack's past. But the farther in she climbs, the harder it is for her to get out. And soon she is faced with a deadly truth she may not be prepared for.

What if Wonderland was in peril and Alice was very, very late? Alice is different than other eighteen-year-old ladies in Kexford, which is perfectly fine with her. She'd rather spend golden afternoons with her trusty camera or in her aunt Vivian's lively salon, ignoring her sister's wishes that she stop all that "nonsense" and become a "respectable" member of society. Alice is happy to meander to Miss. Yao's teashop or to visit the children playing in the Square. She's also interested in learning more about the young lawyer she met there, but just because she's curious, of course, not because he was sweet and charming. But when Alice develops photographs she has recently taken about town, familiar faces of old suddenly appear in the place of her actual subjects—the Queen of Hearts, the Mad Hatter, the Caterpillar. There's something eerily off about them, even for Wonderland creatures. And as Alice develops a self-portrait, she finds the most disturbing image of all—a badly-injured dark-haired girl asking for Alice's help. Mary Ann. Returning to the place of nonsense from her childhood, Alice finds herself on a mission to stop the Queen of Hearts' tyrannical rule and to find her place in both worlds. But will she be able to do so . . . before the End of Time?

An important part of every manager's job is changing people's behavior: to improve someone's performance, get them to better manage relationships with colleagues, or to stop them doing something. Yet, despite the fact that changing people's behavior is such an important skill for managers, too many are unsure how to actually go about it. This book reveals the simple, but powerful techniques for changing behavior that experts from a range of disciplines have been using for years, making them available to all managers in a single and comprehensive toolkit for change that managers can use to drive and improve the performance of their staff. Based on research conducted for this book, it introduces practical techniques drawn from the fields of psychology, psychotherapy, and behavioral economics, and show how they can be applied to address some of the most common, everyday challenges that managers face.

A REESE'S BOOK CLUB PICK Shortlisted for the Women's Prize for Fiction "A wise novel of love and grief, roots and branches, displacement and home, faith and belief. Balm for our bruised times." - David Mitchell, author of *Utopia Avenue* A rich, magical new novel on belonging and identity, love and trauma, nature and renewal, from the Booker-shortlisted author of *10 Minutes 38 Seconds in This Strange World*. Two teenagers, a Greek Cypriot and a Turkish Cypriot, meet at a taverna on the island they both call home. In the taverna, hidden beneath garlands of garlic, chili peppers and creeping honeysuckle, Kostas and Defne grow in their forbidden love for each other. A fig tree stretches through a cavity in the roof, and this tree bears witness to their hushed, happy meetings and eventually, to their silent, surreptitious departures. The tree is there when war breaks out, when the capital is reduced to ashes and rubble, and when the teenagers vanish. Decades later, Kostas returns. He is a botanist looking for native species, but really, he's searching for lost love. Years later a *Ficus carica* grows in the back garden of a house in London where Ada Kazantzakis lives. This tree is her only connection to an island she has never visited--- her only connection to her family's troubled history and her complex identity as she seeks to untangle years of secrets to find her place in the world. A moving, beautifully written, and delicately constructed story of love, division, transcendence, history, and eco-consciousness, *The Island of Missing Trees* is Elif Shafak's best work yet.

That's Life! Marion Boyars Publishers
The New York Times bestselling debut

novel from acclaimed children's author Katherine Hannigan is both very funny and extraordinarily moving. Who is Ida B. Applewood? She is a fourth grader like no other, living a life like no other, with a voice like no other, and her story will resonate long after you have put this book down. How does Ida B cope when outside forces—life, really—attempt to derail her and her family and her future? She enters her Black Period, and it is not pretty. But then, with the help of a patient teacher, a loyal cat and dog, her beloved apple trees, and parents who believe in the same things she does (even if they sometimes act as though they don't), the resilience that is the very essence of Ida B triumph...and Ida B. Applewood takes the hand that is extended and starts to grow up. This modern classic is a great choice for independent reading.
