## RYAN VAUGHAN

### A Complete French Grammar for Reference and Practice

Studies in Medieval and Renais

Uncle Montague lives alone in a big house and his regular visits from his nephew give him the opportunity to relive some of the most frightening stories he knows. But as the stories unfold, a newer and more surprising narrative emerges, one that is perhaps the most frightening of all. Uncle Montague's Tales of Terror, it transpires, are not so much works of imagination as dreadful lurking memories. Memories of an earlier time in which Uncle Montague lived a very different life to his present solitary existence.

Discovering French Calder Publications

This volume explores the various strategies of construing appropriate pasts in scholarship, literature, art, architecture and literature, in order to create "national", regional or local identities, in late medieval and early modern Europe.

The medieval clergy, aristocracy, and commercial classes tended to regard peasants as objects of contempt and derision. In religious writings, satires, sermons, chronicles, and artistic representations peasants often appeared as dirty, foolish, dishonest, even as subhuman or bestial. Their lowliness was commonly regarded as a natural corollary of the drudgery of their agricultural toil. Yet, at the same time, the peasantry was not viewed as "other" in the manner of other condemned groups, such as Jews, lepers, Muslims, or the imagined "monstrous races" of the East. Several crucial characteristics of the peasantry rendered it less clearly alien from the elite perspective: peasants were not a minority, their work in the fields nourished all other social orders, and, most important, they were Christians. In other respects, peasants could be regarded as meritorious by virtue of their simple life, productive work, and unjust suffering at the hands of their exploitive social superiors. Their unrewarded sacrifice and piety were also sometimes thought to place them closest to God and more likely to win salvation. This book examines these conflicting images of peasants from the post-Carolingian period to the German Peasants' War. It relates the representation of peasants to debates about how society should

be organized (specifically, to how human equality at Creation led to subordination), how slavery and serfdom could be assailed or defended, and how peasants themselves structured and justified their demands. Though it was argued that peasants were legitimately subjugated by reason of nature or some primordial curse (such as that of Noah against his son Ham), there was also considerable unease about how the exploitation of those who were not completely alien—who were, after all, Christians—could be explained. Laments over peasant suffering as expressed in the literature might have a stylized quality, but this book shows how they were appropriated and shaped by peasants themselves, especially in the large-scale rebellions that characterized the late Middle Ages.

Conservative thinkers of the early Middle Ages conceived of sensual gratification as a demonic snare contrived to debase the higher faculties of humanity, and they identified pagan writing as one of the primary conduits of decadence. Two aspects of the pagan legacy were treated with particular distrust: fiction, conceived as a devious contrivance that falsified God's order; and rhetorical opulence, viewed as a vain extravagance. Writing that offered these dangerous allurements came to be known as "hermaphroditic" and, by the later Middle Ages, to be equated with homosexuality. At the margins of these developments, however, some authors began to validate fiction as a medium for truth and a source of legitimate enjoyment, while others began to explore and defend the pleasures of opulent rhetoric. Here David Rollo examines two such texts—Alain de Lille's *De planctu Naturae* and Guillaume de Lorris and Jean de Meun's *Roman de la Rose*—arguing that their authors, in acknowledging the liberating potential of their irregular written orientations, brought about a nuanced reappraisal of homosexuality. Rollo concludes with a consideration of the influence of the latter on Chaucer's *Pardoner's Prologue and Tale*.

From the accusation of plagiarism in *The Da Vinci Code*, to the infamous hoaxer in the Yorkshire Ripper case, the use of linguistic evidence in court and the number of linguists called to act as expert witnesses in court trials has increased rapidly in the past fifteen years. *An Introduction to Forensic Linguistics: Language in Evidence* provides a timely and accessible introduction to this rapidly expanding subject. Using knowledge and experience gained in legal settings – Malcolm Coulthard in his work as an expert witness and Alison Johnson in her work as a West Midlands police officer – the two authors combine an array of perspectives into a distinctly unified textbook, focusing throughout on evidence from real and often high profile cases including serial killer Harold Shipman, the Bridgewater Four and the Birmingham Six. Divided into two sections, 'The Language of the Legal Process' and 'Language as Evidence', the book covers the key topics of the field. The first section looks at legal language, the structures of legal genres and the collection and testing of evidence from the initial police interview through to examination and cross-examination in the courtroom. The second section focuses on the role of the forensic linguist, the forensic phonetician and the document examiner, as well as examining in detail the linguistic investigation of authorship and plagiarism. With research tasks, suggested reading and website references provided at the end of each chapter, *An Introduction to Forensic Linguistics: Language in Evidence* is the essential textbook for courses in forensic linguistics and language of the law.

From Paul Valéry to Julia Kristeva, the work of Stéphane Mallarmé has had a lasting impact on twentieth-century French culture. His texts have served as emblem and inspiration for successive generations of cultural theorists and practitioners. In *Meetings with Mallarmé*, top scholars from the UK and USA have been specially commissioned to explore the significance of Mallarmé's influence on some of the major players in French psychoanalysis, music, poetry, philosophy and literary theory. By re-staging these textual encounters, the book demonstrates how the ghostly presence of Stéphane Mallarmé profoundly informed the projects of such key figures as Valéry, Lacan, Sartre, Derrida, Boulez, de Man, Bonnefoy, Kristeva, Blanchot and the Oulipo group. All quotations are translated.

Shoes, gloves, umbrellas, cigars that are not just objects—the topic of fetishism seems both bizarre and inevitable. In this venturesome and provocative book, Emily Apter offers a fresh account of the complex relationship between representation and sexual obsession in turn-of-the-century French culture. Analyzing works by authors in the naturalist and realist traditions as well as making use of documents from a contemporary medical archive, she considers fetishism as a cultural artifact and as a subgenre of realist fiction. Apter traces the web of connections among fin-de-siècle representations of perversion, the fiction of pathology, and the literary case history. She explores in particular the theme of "female fetishism" in the context of the feminine culture of mourning, collecting, and dressing.

This volume presents studies which approach the relatively new field of third language (L3) acquisition from the generative linguistic perspective. It aims to bring together researchers who are interested in L3 acquisition and who are at the same time working within the generative framework i.e. Chomsky's Universal Grammar (UG) approach to language acquisition. A total of nine contributions are included, reporting research on L3 involving different combinations of source/target languages and investigating various UG-related properties.
