Shocking true stories of the world's most notorious criminals from the author of Prince Andrew: Epstein, Maxwell and the Palace. Serial Killers & Mass Murderers takes you into the minds of the criminals who committed the world's most notorious and horrifying crimes. Each of the sadistic murderers profiled here was once known simply as someone's neighbor, co-worker or child. What turned them into killers? In one chilling chapter after another, this book profiles a terrifying succession of homicidal maniacs and asks the question, "What makes them tick?" Through the pages of this haunting book, you'll delve into the psyches of . . . Jeffrey Dahmer The Zodiac Killer Dr. Harold Shipman Son of Sam The Columbine Killers Charles Manson The Night Stalker The Yorkshire Ripper Ted Bundy Charles Starkweather The Boston Strangler And more "The refrigerator contained meat, including a human heart, in plastic bags. There were three human heads in the

freezer. Two more skulls were found in a pot on the stove. Another pot contained male genital organs and severed heads, and there were the remains of three male torsos in the trash."

An extensive encyclopedic reference guide to male and female serial killers from throughout world history. The World Encyclopedia of Serial Killers is the most comprehensive set of its kind in the history of true crime publishing. Written and compiled by Susan Hall, the four-volume set has more than 1600 entries of male and female serial killers from around the world. Defined by the FBI as a person who murders 3 or more people over a period of time with a hiatus of weeks or months between murders, serial killers have walked among us from the dawn of time as these books will demonstrate. While the entries to these volumes will continue to grow—the FBI estimates that there are at least fifty serial killers operating in the United States at any given time—The World Encyclopedia of Serial Killers is as complete as possible through the end of 2017. The series continues with Volume Two, E-L. The entries include El Loco Luis Alfredo Garavito, Happy Face Killer Keith Hunter Jesperson, Interstate Killer Larry Eyler, Godfather of Matamoros Adolfo de Jesus

Constanzo, and Golden State Killer Joseph James DeAngelo. You will find these killers and approximately 350 others in this second book in the series of The World Encyclopedia of Serial Killers.

THE DEFINITIVE DOSSIER ON HISTORY'S MOST HEINOUS! Hollywood's make-believe maniacs like Jason, Freddy, and Hannibal Lecter can't hold a candle to real life monsters like John Wayne Gacy,

Ted Bundy, Jeffrey Dahmer, and scores of others who have terrorized, tortured, and terminated their way across civilization throughout the ages. Now, from the much-acclaimed author of *Deviant*, *Deranged*, and *Depraved*, comes the ultimate resource on the serial killer phenomenon. Rigorously researched and packed with the most terrifying, up-to-date information, this innovative and highly compelling compendium covers every aspect of multiple murderers—from psychology to cinema, fetishism to fan clubs, “trophy” to trading cards. Discover: WHO THEY ARE: Those featured include Ed Gein, the homicidal mama’s boy who inspired fiction’s most famous Psycho, Norman Bates; Angelo Buono and Kenneth Bianchi, sex-crazed killer cousins better known as the Hillside Stranglers; and the Beaney, a fifteenth-century cave-dwelling clan with an insatiable appetite for human flesh HOW THEY KILL: They shoot, stab, and strangle. Butcher, bludgeon, and burn. Drown, dismember, and devour . . . and other methods of massacre too many and monstrous to mention here. WHY THEY DO IT: For pleasure and for profit. For celebrity and for “companionship.” For the devil and for dinner. For the thrill of it, for the hell of it, and because “such men are monsters, who live . . . beyond the frontiers of madness.” PLUS: in-depth case studies, classic killers’ nicknames, definitions of every kind of deviance and derangement, and much, much more. For more than one hundred profiles of lethal loners and killer couples, Bluebeards and black widows, cannibals and copycats—this is an indispensable, spine-tingling, eye-popping investigation into the dark hearts and mad minds of that twisted breed of human whose crimes are the most frightening . . . and fascinating.

There is little more terrifying than those who hunt, stalk and snatch their prey under the cloak of darkness. These hunters search not for animals, but for the touch, taste, and empowerment of human flesh. They are cannibals, vampires and monsters, and they walk among us. These serial killers are not mythical beasts with horns and shaggy hair. They are people living among society, going about their day to day activities until nightfall. They are the Dennis Rader's, the fathers, husbands, church going members of the community. This A-Z encyclopedia of 150 serial killers is the ideal reference book. Included are the most famous true crime serial killers, like Jeffrey Dahmer, John Wayne Gacy, and Richard Ramirez, and not to mention the women who kill, such as Aileen Wuornos and Martha Rendell. There are also lesser known serial killers, covering many countries around the world, so the range is broad. Each of the serial killer files includes information on when and how they killed the victims, the background of each killer, or the suspects in some cases such as the Zodiac killer, their trials and punishments. For some there are chilling quotes by the killers themselves. The Big Book of Serial Killers is an easy to follow collection of information on the world's most heinous murderers.

Serial killers like Seattle's Ted Bundy, Maryland's Beltway Sniper, Atlanta's Wayne Williams, or England's Peter Sutcliffe usually outsmart the task forces on their trail for long periods of time. Keppel and Birnes take readers inside the operations of serial killer task forces to learn why. What is the underlying psychology of a serial killer and why this defeats task force investigations? This is the first book of its kind that combines state-of-the-art psychological assessment experience with the expertise of a homicide investigator who has tracked some of this country's most notorious serial killers. The author also brings to the book hands-on best practices gleaned from the experience of other task forces. Readers, both professionals and students, will benefit from the comprehensive and critical case reviews, the analysis of what went wrong, what went right, and the after-action recommendations of evaluators in the US, UK, and Canada. The book covers: * The nature of the psychology of a serial killer * How crime assessment profiling reveals that psychology * Why psychological profiles fail * How serial killer task forces defeat themselves * How the media

can, and usually does, undermine the task force operation * The big secret of all serial killer investigations: police already have the killer's name * The best practices for catching a serial killer * Comprehensive case reviews of some of the US's and UK's most baffling serial killer cases * A list of best practices for serial killer task force investigators * Recommendations for how to manage comprehensive files and computer records * Practical advice on how to manage the media: what to say and not to say * Insight into what a serial killer might be thinking and doing to stay away from police * Recommendations for setting up and administering long-term investigations * Practical tips on how to maintain a task force's psychological edge and avoid defeatism
