From renowned artist Gregory Manchess comes a lavishly painted novel about the son of a famed polar explorer searching for his stranded father, and a lost city buried under snow in an alternate future. When it started to snow, it didn't stop for 1,500 years. The Pole Shift that ancient climatologists talked about finally came,

the topography was ripped apart and the weather of the world was changed—forever. Now the Earth is covered in snow, and to unknown depths in some places. In this world, Wes Singleton leaves the academy in search of his father, the famed explorer Galen Singleton, who was searching for a lost city until Galen's expedition was cut short after being sabotaged. But Wes believes his father is still alive somewhere above the timberline. Fully illustrated with over 120 pieces of full-page artwork throughout, *Above the Timberline* is a stunning and cinematic combination of art and novel.

For more than a dozen years, a soft spoken, unassuming woman dominated design at The Walt Disney Studios with a joyful creativity and exuberant color palette that stamped the look of many classic Disney animated features, including *Cinderella* and *Peter Pan*. Favorite theme park attractions, most notably the "It's A Small World" boat ride, originally created for the 1964 New York World's Fair, were also among her designs. Now the story behind one of Walt's favorite artists is celebrated in this delightful volume of whimsical art and insightful commentary. In her prime, Mary Blair was an amazingly prolific American artist who enlivened and influenced the not-so-small worlds of film, print, theme parks, architectural decor, and advertising. Her art represented and communicated pure pleasure to the viewer. Mary Blair's personal flair was at one with the imagery that flowed effortlessly and continually from her brush for more than half a century. Walt Disney loved her art and championed it at the Studio. The two shared many sensibilities, including a childlike fondness for playfulness in imagery.
