Mini Down Under traces the history of one of New Zealand's - and the world's - best-loved cars. More versions of the Mini were available in New Zealand than anywhere else, and the launching of the iconic car in February 1960 was a larger-than-life event. In this lively and personal story, the author tracks the Mini's life in New Zealand, the connection between Kiwi racing driver Bruce McLaren and the birth of the Mini Cooper, the heady days of competition success in the Antipodes, the local assembly and marketing of the classic original car and the eventual development into the latest generation Mini for a new century.

This early work by William Hazlitt is both expensive and hard to find in its first edition. It contains a collection of essays on various subjects by one of the unsung masters of the English language. This is a fascinating work and thoroughly recommended for anyone interested in English literature. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

A Collection of Familiar Quotations Bentley Publishers

Despite the relevance of Eustathios to both Classical and Byzantine studies, no monograph and no collective volume in English has yet been devoted to his figure. This book attempts to fill in this gap by addressing the

various facets of his output - above all his commentaries on Homer, Dionysius the Periegete, Pindar, and the Iambic Canon on the Pentecost; but also his historiographical work, his speeches and his theological production receive due attention. The book also tackles several aspects of Eustathios' style (proverbs, allusions, etc.), and the meaning of his work in the context of his historical moment. Addressed at specialists but also at graduate students with an interest in the reception of Classical antiquity and in Byzantine civilisation, the volume gathers papers by leading scholars from various countries, and it opens up new paths of research in several areas of philology and history, above all by interweaving and juxtaposing Eustathios' dimension as an Homerist and an immensely learned classical scholar with his capacities as an orator, a highly praised teacher, a rhetorically refined writer of Greek prose, an historian of his own turbulent times, and an archbishop who had to fulfil his everyday duties. *Mini Down Under* Walter de Gruyter GmbH & Co KG Argues that face-to-face
