A Guide to Naturalization Learn about the United States Quick Civics Lessons for the New Naturalization Test

Uncertainty is central to the governance of citizenship, but in ways that erase, even deny, this uncertainty. This book investigates uncertain citizenship from the unique vantage point of 'citizenisation': twenty-first-century integration and naturalisation measures that make and unmake citizens and migrants, while indefinitely holding many applicants for citizenship in what Fortier calls the 'waiting room of citizenship'. Fortier's distinctive theory of citizenisation foregrounds how the full achievement of citizenship is a promise that is always deferred: if migrants and citizens are continuously citizenised, so too are they migratised. Citizenisation and migratisation are intimately linked within the structures of racial governmentality that enables the citizenship of racially

minoritised citizens to be questioned and that casts them as perpetual migrants. Drawing on multi-sited fieldwork with migrants applying for citizenship or settlement and with intermediaries of the state tasked with implementing citizenisation measures and policies, Fortier brings life to the waiting room of citizenship, giving rich empirical backing to her original theoretical claims. Scrutinising life in the waiting room enables Fortier to analyse how citizenship takes place, takes time and takes hold in ways that conform, exceed, and confound frames of reference laid out in both citizenisation policies and taken-for-granted understandings of 'the citizen' and 'the migrant'. Uncertain Citizenship's nuanced account of the social and institutional function of citizenisation and migratisation offers its readers a grasp of the array of racial inequalities that citizenisation produces and reproduces, while providing theoretical and empirical tools to address these inequalities.

21st Century Corporate Citizenship is a practical guide to building a successful business in the modern day. It is a book about leveraging all the tools, trends and assets at the disposal of business to drive

bottom-line results, value chain resiliency, productivity, innovation, long-term shareowner value, and benefit for the community. This is the book that leverages corporate citizenship as a value-creating enterprise and translates sustainability, corporate responsibility, and social impact to help you create the most successful business possible in tomorrow's competitive landscape. For the up and coming manager, this book is the crib sheet to the 21st century MBA that you can't get (yet) in business schools. The tools and insights presented are valuable for every business person thinking about how to differentiate their company and maximize business and social value--from the sole proprietor to those working in a global megacorporation--the concepts explored are 'must do' for those working for manufacturing B2B or B2C companies that are managing complex supply chains, global operations, and corporate reputation. This 'how-to' handbook presents a step-by-step process aimed at helping you create the most successful business possible in the 21st century competitive landscape, empowering corporate citizenship professionals to accelerate their credibility within their company as an effective contributor who understands their company's strategy and who creates value.

Us and Them? explores the distinction between migrant and citizen through using the concept of 'the community of value'. The community of value is comprised of Good Citizens and is defined from outside by the Non-Citizen and from the inside by the Failed Citizen, that is figures like the benefit scrounger, the criminal, the teenage mother etc. While Failed Citizens and Non-Citizens are often strongly differentiated, the book argues that it is analytically and politically productive to consider them together. Judgments about who counts as skilled, what is a good marriage, who is suitable for citizenship, and what sort of enforcement is acceptable against 'illegals', affect citizens as well as migrants. Rather than simple competitors for the privileges of membership, citizens and migrants define each other through sets of relations that shift and are not straightforward binaries. The first two chapters on vagrancy and on Empire historicise migration management by linking it to attempts to control the mobility of the poor. The following three chapters map and interrogate the concept of the 'national labour market' and UK immigration and citizenship policies

examining how they work within public debate to produce 'us and them'. Chapters 6 and 7 go on to discuss the challenges posed by enforcement and deportation, and the attempt to make this compatible with liberalism through anti-trafficking policies. It ends with a case study of domestic labour as exemplifying the ways in which all the issues outlined above come together in the lives of migrants and their employers.

Thomas Jefferson (1743-1826) was the greatest idealist of the Founding Fathers of America. He believed that average citizens are up to the challenge of governing themselves. He envisioned a republic of well-educated, well-informed, engaged, and vigilant citizens. Jefferson's dream of a semi-utopian American republic has nearly been swallowed up by cynical partisanship, government gridlock, consumer materialism, and the corrosive power of money in American politics. Jefferson believed in civility, majority rule, the primacy of science and reason, and harmony in all of our public and private relations. Public humanities scholar Clay S. Jenkinson believes we can return to Jeffersonian principles both in our private lives and the public sphere. Repairing Jefferson's America is a clear and concise guide for those who wish to live more rational, purposeful, and enlightened lives. *A Journey to Citizenship* CreateSpace This item is sold only in sets of 50.
