Elsevier Health Sciences

Lewis's Medical-Surgical Nursing ANZ 5th edition continues as the most comprehensive, go-to reference for developing the core aspects of professional nursing care in Australia and New Zealand. With a clear framework of person-centred care, critical thinking, clinical reasoning and evidence-based practice

underpinning the assessment and management of adults with complex, acute and chronic healthcare issues, the 5th edition provides nursing students with the foundations for developing expert clinical practice. Thoroughly revised, the new edition responds to key health priorities, providing an innovative approach to addressing Indigenous health in Australia and New Zealand. Greater emphasis is also given to the issues of: self-care; examination of the nurse's role within an interprofessional team; and management of the deteriorating patient, to reflect the changing nature of nursing practice in the contemporary healthcare environment. This now includes Elsevier Adaptive

Quizzing for Medical Surgical Nursing, ANZ 5e. Comprehensive chapters cover topics including nursing management and collaboration, health promotion, acute interventions, and ambulatory care. Summary tables and boxes make it easy to find essential information, and a building-block approach makes even the most complex concepts simple to grasp. In addition to three new chapters, this edition includes a stronger focus on the nursing process, clinical judgment, and

preparation for the Next-Generation NCLEX(R) Examination. Content written and reviewed by leading experts in the field ensures that information is comprehensive, current, and clinically accurate. Interprofessional care is addressed in special Interprofessional Care sections and Interprofessional Care tables. Bridge to the NCLEX(R) Examination review questions reinforce key content and include both standard and alternate item format questions to help you prepare for the NCLEX exam. Coverage of cultural and ethnic health disparities highlights important issues such as risk factors, economic aspects, and access to health care. Coverage of gerontology and chronic illness is addressed in a separate chapter and highlighted in special gerontologic tables. Pathophysiology maps use flowcharts to outline complex concepts related to diseases, making them easier to understand. Focused Assessment boxes provide brief checklists for a practical "assessment on the run" or bedside approach to assessment, and can be used to evaluate the status of previously identified health problems and monitor for signs of new problems. Safety Alert boxes highlight patient safety issues and focus on the National Patient Safety Goals. Nutritional Therapy tables summarize nutritional interventions and strategies for promoting healthy lifestyles. Promoting Population Health boxes summarize health care goals as they relate to specific disorders such as cancer and diabetes, and identify strategies for health promotion. Drug Therapy tables and Drug Alerts highlight important safety considerations for key drugs. Check Your Practice boxes challenge you to think critically, analyze patient assessment data, and implement appropriate interventions. Coverage of genetics includes a separate chapter on genetics, Genetics in Clinical

Practice boxes covering disorders and genetic testing, risk alerts, and links to disorders. Focus on patient and caregiver teaching shows how you can help patients and caregivers learn to manage chronic illnesses and conditions. Ethical / Legal Dilemmas boxes introduce key topics such as informed consent, advance directives, and confidentiality. Enhanced focus on clinical judgment and preparation for the Next-Generation NCLEX(R) Exam (NGN) features Applying Clinical Judgment With Multiple Patients boxes with traditional and NGN-style questions. Revised table of contents reflects critical care content throughout the book and adds new chapters including Supporting Ventilation and Caring for Lesbian, Gay, Bisexual, Transgender, Queer or Questioning, and Gender Diverse Patients. Social Determinants of Health chapter focuses on nursing awareness of how patient circumstances affect health outcomes. Clinical problems language replaces NANDA-I / ICNP diagnoses and better aligns with Harding & Hagler's Conceptual Nursing Care Planning. Case studies - now labeled with Cognitive Skills from the NCSBN's Clinical Judgment Measurement Model - bring patient care to life, helping you develop skills in clinical judgment, prioritization, delegation, and evidence-based practice. Conceptual focus for the patient experiencing infection or inflammation is included in the Infection chapter and the Inflammation and Healing chapter. Updated content throughout reflects the latest evidence-based guidelines for patient care. Streamlined features and content provide an optimized learning experience.
