Tomoko Fuse has been one of the world's premier origami artists for more than 35 years. This beautifully photographed book examines the three-dimensional geometric designs she is famous for. Fuse, often referred to as "the queen of origami," discovered the art of folding paper at just seven years old. She has come a long way since then, having had her work highlighted in exhibitions around the world, including Paris Origami (Carrousel du Louvre, 1998), On Paper (Crafts Council London, 2002) and her solo show Yorokobi (Bauhaus Dessau, 2004). In addition to teaching, folding and writing, she also collaborated with designer Denis Guidone for Milan Design Week 2018 and was a featured artist in Nova's episode "The Origami Revolution" (February, 2017). An artistic anthology of her most impressive work, Tomoko Fuse's Origami Art can serve multiple purposes: as inspiration for an experienced origami folder; as a truly impressive coffee table book for the artistically-minded; or as a push for intermediate folders to try their hand at modular origami models.

Japanese Origami Paper Pack Penguin UK

It is true that he has been one of the inner circle of the 'Beats' from the first, but many admirers of his poetry feel that it belongs quite as much to other and older traditions in world literature. One of these is the revival of pure poetry whenever an "original"--be it Rimbaud or Whitman--has broken with current verse conventions to give free rein to the magic of language. Another is that ancient pre-occupation of poets--the sense of the immediacy of death. Like Villon or Dylan Thomas, Corso lives close to the mystery of death. It is, perhaps, his central theme, on which variations ranging from the terrible to the comic are sounded. But Corso is seldom macabre. A bursting vitality always carries him back to the sensations of the living, though always it is the reality behind the obvious which has caught his eye. "How I love to probe life," Corso has written, "That's what poetry is to me, a wondrous prober... It's not the metre or measure of a line, a breath; not 'law' music; but the assembly of great eye sounds placed into an inspired measured idea."
