This book offers explanations to misconceived notions in the minds of some people about verses, words and phrases of the Quran. An essential clear understanding is imperative to imbibe the ideologies propounded by the authors and rightful owners of books containing the said ideology. Here the ideology known as Islam has its author as 'The Creator' and His prophets, any misunderstanding and misconceptions about the contents of the book by men would lead them to a disastrous end in their hereafter life. This compilation of explanations for the words, phrases and verses of the Quran by the Tamil Islamic Scholar widely known as PJ is unique and challenges some preconceived, ill-conceived notions of established traditional thinking deeply seated in the minds of Muslims all over the world, and in Tamil Muslims in particular. May the Almighty bless all those who are rightly guide by him.

This book explores the relationship between subjective experience and the cultural, political and historical paradigms in which the individual is embedded. Providing a deep analysis of three compelling case studies of schizophrenia in Turkey, the book considers the ways in which private experience is shaped by collective structures, offering insights into issues surrounding religion, national and ethnic identity and tensions, modernity and tradition, madness, gender and individuality. Chapters draw from

cultural psychiatry, medical anthropology, and political theory to produce a model for understanding the inseparability of private experience and collective processes. The book offers those studying political theory a way for conceptualizing the subjective within the political; it offers mental health clinicians and researchers a model for including political and historical realities in their psychological assessments and treatments; and it provides anthropologists with a model for theorizing culture in which psychological experience and political facts become understandable and explainable in terms of, rather than despite each other. Meaning, Madness, and Political Subjectivity provides an original interpretative methodology for analysing culture and psychosis, offering compelling evidence that not only "normal" human experiences, but also extremely "abnormal" experiences such as psychosis are anchored in and shaped by local cultural and political realities.

Life of Mo is a musical satire based on the life of the Prophet Mohammed. These explanatory notes, which include the full text of Life of Mo, attempt to determine the sources of the play's material, and offer further explanatory notes regarding the themes and ideas raised in the play. Superficially, Life of Mo is a musical fantasy romp, combining stories with re-writes of songs by popular artists like Dolly Parton, Freddy Mercury, Mick Jagger, Billy Joel, Led Zeppelin, Meat Loaf and Jim Steinman and others. But Life of Mo has a deeper grounding, and its sources include original texts (the Qur'an, ahadith, and Bible), and commentaries by writers like William Muir, Robert Spencer, Ali Dashti and Ali Sina. In addition, the writer has also used Internet sources, like Wikipedia, YouTube and Reddit. CF Hibbot's Notes and Commentary to Jock's Life of Mo traces through the humour and the tragedy to render a deeper appreciation and understanding of the play and the subject matter covered.

The book 'Esoteric Islam' discusses the mystical teachings of Quran from the standpoint of ancient mysteries and modern metaphysics. The Quran is considered as the book of divine guidance by Muslims whose main subject constitutes 'man'. From a hermetic standpoint, the Quranic mysteries carry a great deal of connection to the hermetic arts of astrology and alchemy. Here, I have attempted to explain the manner in which symbolism of the hermetic precepts can be used to understand the Quran in its structural designs alongside the principle tenets, so as to define the notions of highest aspirations in men, and to unravel the mystique of this very impressive literature.
