An Epic Poem Grand Central Publishing

A scientist reveals the groundbreaking evidence linking many major diseases, including cancer, diabetes, and Alzheimer's disease, to a common root cause—insulin resistance—and shares an easy, effective plan to reverse and prevent it. We are sick. Around the world, we struggle with diseases that were once considered rare. Cancer, heart disease, Alzheimer's disease, and diabetes affect millions each year; many people are also struggling with hypertension, weight gain, fatty liver, dementia, low testosterone, menstrual irregularities and infertility, and more. We treat the symptoms, not realizing that all of these diseases and disorders have something in common. Each of them is caused or made worse by a condition known as insulin resistance. And you might have it. Odds are you do—over half of all adults in the United States are insulin resistant, with most other countries either worse or not far behind. In *Why We Get Sick*, internationally renowned scientist and pathophysiology professor Benjamin Bikman explores why insulin resistance has become so prevalent and why it matters. Unless we recognize it and take steps to reverse the trend, major chronic diseases will be even more widespread. But reversing insulin resistance is possible, and Bikman offers an evidence-based plan to stop and prevent it, with helpful food lists, meal suggestions, easy exercise principles, and more. Full of surprising research and practical advice, *Why We Get Sick* will help you to take control of your health.

The Adventures of Brisbane and Friends is a story all about love. The bears come to life from a Da-Da hug that is full of love, and the bears are from different parts of the world and different continents. But it doesn't matter to these bears; no matter how different they are, they love one another like brothers do. They love to play all kinds of games, and like most bears, they love to eat. Brisbane and friends love Grandpa Rue's cookies and everything else he fixes. Of course, they have a message of love. To unite is if you show somebody some love. The author will be donating a portion of all proceeds to the following organization: The Immigration Outreach Service Center St. Matthew Catholic Church Baltimore, Maryland

Escaping his ghosts, AIDS widower David Masiello accepts a one-year position at a Western medical clinic in Beijing. Lonely but excited, he sets out to explore the city—both its bustling street life and its clandestine gay subculture. David chronicles his adventures in China as he wrestles with cultural dislocation, loneliness, and sexual and spiritual longing. After a series of both comic and poignant encounters with gay Chinese men, he meets Bosheng, a handsome young artist. Though the attraction is strong, a difficult courtship ensues, during which Bosheng returns to his ancestral village to marry the girl his parents have chosen for him. Eventually, and quite unexpectedly, David and Bosheng reconnect and share an idyllic spring together. As the year ends, David must decide whether to say goodbye or face the uncertainties of a long-distance relationship. Gambone's novel is peopled with a host of wonderfully memorable characters: Owen, David's forthright best friend back home; Auntie Chen, the clinic's office mom, who wants to fix David up with a girlfriend; Stewart, David's Beijing roommate, a graduate student doing research on Peking opera; Jiantao and Guoyang, two lovers who lecture David on the fleeting quality of American romance; and Tyson, the Australian doctor with a Chinese girlfriend, who hopes to teach David that love doesn't need any explanations or justifications.

Kennelly followed his shocking epic poem *Cromwell* with the even more notorious *Book of Judas*, which topped the Irish bestsellers list. This new piece of mischief out-Judas *Cromwell*, sinking its teeth into the pants of poetry itself. Here, the author plays devil's advocate, exploring the 'poetryworlds' of one Ace de Horner who is slowly going blind. Helped by his uglyjoe dog, Kanooco, and by a woman, Janey Mary, Ace thinks he is connecting the fragments of his life a little more convincingly. Not so! As the poem digs into Ace's vanity, visions, fantasies, failures, dedication and absurdity, the reader is aware of Ace's frustration in his efforts to relate to poetry, to his jocular distortions of language and to his pained perspective on the world.

The Health of Strangers University Press of Colorado

On the basis of empirical studies, this book explores nature as an integral part of the social worlds conventionally studied by anthropologists. The book may be read as a form of scholarly "edgework," resisting institutional divisions and conceptual routines in the interest of exploring new modalities of anthropological knowledge making. The present interest in the natural world is partly a response to large-scale natural disasters and global climate change, and to a keen sense that nature matters

matters to society at many levels, ranging from the microbiological and genetic framing of reproduction, over co-species development, to macro-ecological changes of weather and climate. Given that the human footprint is now conspicuous across the entire globe, in the oceans as well as in the atmosphere, it is difficult to claim that nature is what is given and permanent, while people and societies are ephemeral and simply derivative features. This implies that society matters to nature, and some natural scientists look towards the social sciences for an understanding of how people think and how societies work. The book thus opens up a space for new forms of reflection on how natures and societies are generated.

Before there was Lois Lowry's *The Giver* or M. T. Anderson's *Feed*, there was Robert Cormier's *I Am the Cheese*, a subversive classic that broke new ground for YA literature. A boy's search for his father becomes a desperate journey to unlock a secret past. But the past must not be remembered if the boy is to survive. As he searches for the truth that hovers at the edge of his mind, the boy—and readers—arrive at a shattering conclusion. "An absorbing, even brilliant job. On September 11, 2001, journalist Tom Flynn set off on his bike toward the World Trade Towers not knowing what he was riding into. *Bikeman* is one man's journey back to the horrors of that day and to the humanity that somehow emerged from the dust and the death. Both heartbreaking and haunting, his words will stay with you like that "forever September morning." --Meredith Vieira, NBC's *Today* Tom Flynn brings to his subject three invaluable attributes: the eye of a seasoned journalist, the soul of a poet, and his stunning, first-hand experience of that horrific day." --David Friend, *Vanity Fair* From *Bikeman*: The dead from here are my forever companions I am their pine box, their marble reliquary, their bronze urn, the living, breathing coffin they never had, their final resting place without a stone. I move on at peace. Modeled on Dante's *Inferno*, veteran journalist Thomas Flynn's *Bikeman* chronicles the morning of September 11, 2001 like no other published work. Flynn delivers a personal account of his experiences beginning with the first strike on the World Trade Center when he decided to follow his journalist's instinct and point his bike's handlebars in the direction of the north tower. His story continues as he transitions from reporter to participant hoping to survive the fall of the south tower. Now Flynn, as both journalist and now survivor, must come to terms with the harrowing ordeal and somehow find peace in the very act of surviving. Part journalist's record, part survivor's eulogy, Flynn writes: Survival is the absence of death. It is a subdued, a hushed existence. . . I live to talk about it, to relate the tale as it happens, not only its extremities and cruelty, but also the goodness that flourishes too.

The Pudsays of Bolton and Barforth, and Their Predecessors in Those Manors Andrews McMeel Publishing

The Brotherhood is an intriguing story of a matrix of the deadly operations of Nigerian university cult gangs and religious groups set in one of the most populous black nation's foremost university. Capone Aboy, the head of the Black Eagles confraternity had planned to make his group the most respected and feared confraternity on campus. In order to achieve this, he had to raise funds, manipulate the political system of the Students Union Government and weaken rival confraternities. Everything was taking shape, until Sister Evelyn, a Christian fellowship leader came across his part. Although her effort to get him 'born again' was unsuccessful, a strange relationship had developed between the two. Things were going well for the confraternity until a series of errors by their hit-man triggered a bloody chain reaction which led to the death of several people, including Capone Aboy's cousin. A cult war ensued leading to a trail of blood, deaths and destruction. In the moment of victory by the Black Eagles confraternity, Capone Aboy came to realize that despite achieving his desire on campus, his life was empty, and the only thing that meant anything to him was his love for Sister Evelyn.
