Global Tourist Behavior contains travel and marketing research that explores the integral global nature of tourism. The globalization of tourism has resulted in more culturally diverse travelers with different preferences, motivations, expectations, and needs, while at the same time worldwide movements toward democracy have made some locations more accessible than ever before. New diversity in global tourist behavior and the reciprocal interaction between travelers and destinations will pose new challenges and create new opportunities for tourism professionals. **Global Tourist Behavior** helps readers meet these challenges by providing unique and invaluable new research on global travel behavior as an integral component of travel and tourism marketing research. It features original, empirical research by tourism scholars representing a variety of locations worldwide, including North America, the Caribbean, Eastern Europe, Germany, Indonesia, Korea, the Netherlands, the United Kingdom, and Zambia. The geographically diverse chapters in **Global Tourist Behavior** present research on: marketing places to tourists; tourists' knowledge of culture issues in cross-cultural tourism; tourism channels and distribution systems; international tourism and marketing expert systems in tourism marketing management; the impact of mega events; health tourism. Tourism promoters, decisionmakers, and students will find the information on international travelers' preferences, expectations, motivations, images, attitudes, and choices of tour packages extremely helpful. The book can also be used as a guide for attracting

international tourist business and developing appropriate marketing and management strategies for specific destinations. **The LGBT Casebook** A&C Black

The Lottie Project Random House

Family history is one of Britain's most popular pastimes. Around six million people in Britain are researching their family trees, and genealogy is one of the top categories for online searches. The opening up of public records, the growth of family history societies and the introduction of computers and the internet have made the subject accessible to everyone. Yet, while there is no shortage of books on how to do family history, few writers have attempted to put the field itself into a historical and social context, and no popular history of the subject has been published in Britain in the last 50 years. That is why Michael Sharpes new history is so significant. He traces the rise of genealogy from an esoteric interest of gentlemen and scholars to a mainstream hobby enjoyed by millions. He describes in vivid detail the landmark events and the personalities behind them, telling the story of the evolution of family history through the eyes of those involved. His original and highly readable work offers a fresh perspective on an activity that is not just a fast-growing leisure pursuit but also a rapidly expanding business sector and an important field for public policy.

 "She is his curse, the one thing that Athea created to be

Konstantin's downfall, and inside, Van holds a monster who is falling for it." Walking among humans are beings far different from their own. However, both their worlds are more intertwined than it seems. Revered as a god by his own kind, Van Volkov holds one of the four remaining Lycans, Konstantin. His golden eyes command great attention. Bound to protect the shifters for eternity, he has blocked out all forms of emotions he considered a weakness and formed a steel wall around him. That was until a group of rogue shifters attacked and killed a nearby campsite. Because of the Alpha that he is, Van has to safeguard the territory and keep the attack under wraps. But something made Konstantin ill at ease - a human child had survived. And as if by fate, he finds the key to unlocking his hidden humanity. But after he took the child under his care, something that he has never imagined, nightmarish things start to unfold, and a prophecy of long ago begins to unravel. Just when he thought that everything has been put under control, the truth is, the story has only just started. What if the prophecy is true? Finding out that the child is the reason for his demise and all the shifters he is supposed to protect, he has but one crucial decision to make... Will he choose the lady or the wolf? Tracing Your Family History on the Internet American Psychiatric Pub

Even in today's more enlightened society, it takes courage for many lesbian, gay, bisexual, and transgender (LGBT) individuals to "come out of the closet" and embrace their sexual orientation and identity. Coming out, or facing internal and societal conflicts related to sexuality, involves a great deal of anxiety that can permeate other aspects of an LGBT individual's life -- particularly when seeking psychiatric treatment. The goal of **The LGBT Casebook** is to help clinicians, trainees, and other mental health professionals address the mental health needs of LGBT people in the context of problems these individuals face in their everyday lives, including homophobia and discrimination. **The LGBT Casebook** begins with five chapters devoted to basic concerns that affect LGBT populations, including coming out, heterosexist attitudes, the "don't ask, don't tell" mentality, legal issues, gay parenting, and sexual identity in patient-therapist relationships. In the rest of the book, clinician-authors present case studies of 20 patients with different DSM diagnoses, illuminating the impact of LGBT identity and illustrating a way of working with each presented patient. Features and benefits of **The LGBT Casebook** include: Insights into the unique problems LGBT people face in their everyday lives when compared with heterosexual individuals. Problems that are common to all LGBT individuals, such as the anxiety of being in the closet (hiding one's identity) or

coming out (embracing one's identity). Practitioners with little experience in working with the LGBT population can gain a better understanding of psychiatric diagnoses within the context of an LGBT individual's everyday life. The book can be read cover-to-cover to gain insights into the full diversity of the LGBT population, or by specific chapters of interest to help with the diagnosis of a patient currently in treatment. A glossary at the back of the book defines both clinical and colloquial terms and phrases that clinicians and patients use to define themselves and their peers. While *The LGBT Casebook* is the ideal general overview and roadmap for the clinician new to treating LGBT patients, it also provides new pearls of wisdom and insights for psychiatrists, residents, medical students, nurses, and clinical social workers who are already familiar with working with the LGBT community. By introducing a diverse range of people, diagnoses, and presenting problems, it will serve as a valuable reference book for all mental health professionals when assessing and treating the mental health concerns of lesbian, gay, bisexual, and transgender patients.

Hi! I'm Charlie (DON'T call me Charlotte - ever!). History is boring, right? Wrong! The Victorians weren't all deadly dull and drippy. Lottie certainly isn't. She's eleven - like me - but she's left school and has a job as a nursery maid. Her life is really hard, just work work work, but I bet she'd know what to do about my mum's awful boyfriend and his wimpy little son. I bet she wouldn't mess it all up like I do . . .

It is easy to say "I have no prejudices", "I'm not racist, so it has nothing to do with me", "I didn't invite those refugees". It is hard to say "I may not be to blame for what happened in the past but I want to take responsibility for making sure it doesn't continue in the future". The Education Pack "all different - all equal" was originally produced in 1995 as an educational resource for the European youth campaign against racism, antisemitism, xenophobia and intolerance. Soon after its publication it became a reference work for those involved in intercultural education and training with young people across Europe and beyond. Translated into many languages, it remains today one of the most successful and most sought after publications of the Council of Europe. The usefulness of the pack stems from the variety and creativity of the methodologies proposed. More than twenty years after the "all different - all equal" campaign, the role plays, simulation exercises, case studies and cooperative group work that it proposes remain an inspiration to many youth workers, trainers, teachers and other people actively involved in intercultural education. European societies continue to suffer from a growth of racist hostility and intolerance towards minorities and foreigners; the necessity for intercultural youth work remains undiminished and the relevance of this pack remains unquestionable. Little bit has been changed in this new edition of the pack, apart from an updating of references. Most changes are visible and usable only in the online version, which offers relevant links with other resources for human rights education which continue the legacy of the campaign: equality in dignity and rights, respect for broader appreciation of diversity.

Metalanguage in Interaction Council of Europe

"Metalanguage in Interaction" is about the crystallization of metalanguage employed throughout interaction into the discourse markers which permeate talk. Based on close analysis of naturally-occurring Hebrew conversation, it is a synchronic study of the grammaticization of discourse markers, a phenomenon until now mostly studied from a diachronic perspective. It constitutes the first monograph in the fields of Hebrew interactional linguistics and Hebrew discourse markers. The book first presents what is unique to the present approach to discourse markers and gives them an operational definition. Discourse markers are explored as a system, illuminating their patterning in terms of function, structure, and the moments in interaction at which they are employed. Next, detailed analysis of four Hebrew discourse markers illuminates not only the functions and grammaticization patterns of these markers, but also what they reveal about quintessential aspects of Israeli society, identity, and culture. The conclusion discusses commonalities and differences in the grammaticization patterns of the four markers, and relates the grammaticization of discourse markers from interaction to projectability in discourse.

found their niches" (USA Today). Stanley focuses in on the top one percent of households in America and tells us the motor behind the engine; what makes them tick. His findings on how these families reached such financial success are based on in-depth surveys and interviews with more than thirteen hundred millionaires. It's an inspiration for anyone who has ever been told that he wasn't smart enough or good enough." —*Associated Press* "A high IQ isn't necessarily an indicator of financial success . . . Mama says we must be ready, ready for that angel coming. High in the hills of Kentucky, a little girl eagerly awaits the arrival of a very special visitor -- an "angel" who, she is told, will come riding up the mountain on horseback, carrying a baby sister or brother in her saddlebag. Li'l sis is what I'm wanting. Li'l sis is what I'll call her. I'll braid her hair right pretty, brush it out most every night. But the "angel" is not exactly what the young narrator imagined, and neither is the precious bundle that comes when she least expects it. This gem of a story highlights a little-known piece of American history: the Frontier Nursing Service, a pioneering group of women who came to be called "angels on horseback."

In the heyday of the foreign correspondent, Michael Davidson traveled the globe and campaigned against oppression and injustice. He joined the Berlin communists against Hitler, crossed wartime Morocco in Arab disguise, and opposed the British authorities in Malaya and Cyprus. Twice sent to prison for his sexuality, he bravely wrote in 1962 *Life Story Of A Lover Of Boys*. This autobiography, praised by Arthur Koestler and James Cameron, is a classic memoir of gay life in the first half of the century.

"A thorough and informative guide . . . with as many references to websites for Northern Irish genealogy as for the Republic of Ireland." —*Who Do You Think You Are Magazine* Ireland has experienced considerably more tragedy when it comes to the preservation of resources for family historians than its close neighbor Britain. Many of the nation's primary records were lost during the civil war in 1922 and through other equally tragic means. But in this new book Chris Paton, the Northern-Irish-born

author of the bestselling *Tracing Your Family History on the Internet*, shows that not only has a great deal of information survived, it is also increasingly being made available online. Thanks to the pioneering efforts of the Public Record Office of Northern Ireland, the National Archives of Ireland, organizations such as FindmyPast Ireland, Ancestry.co.uk and RootsIreland, and the massive volunteer genealogical community, more and more of Ireland's historical resources are accessible from afar. As well as exploring the various categories of records that the family historian can turn to, Chris Paton illustrates their use with fascinating case studies. He fully explores the online records available from both the north and the south from the earliest times to the present day. Many overseas collections are also included, and he looks at social networking in an Irish context where many exciting projects are currently underway. His book is an essential introduction and source of reference for anyone who is keen to trace their Irish roots. "Chris Paton has produced this much-needed book for researchers tracing Irish roots, pulling together all the current online resources and expert advice into one handy guide." —*Family Tree Magazine*

In recent years the popular media have described Vietnamese Americans as the quintessential American immigrant success story, attributing their accomplishments to the values they learn in the traditional, stable, hierarchical confines of their family. Questioning the accuracy of such family portrayals, Nazli Kibria draws on in-depth interviews and participant observation with Vietnamese immigrants in Philadelphia to show how they construct their family lives in response to the social and economic challenges posed by migration and resettlement. To a surprising extent, the "traditional" family unit rarely exists, and its hierarchical organization has been greatly altered.

Transnational business people, international aid workers, and diplomats are all actors on the international stage working for organizations and groups often scrutinized by the public eye. But the very lives of these global middlemen and women are relatively unstudied. *Mediating the Global* takes up the challenge, uncovering the day-to-day experiences of elite foreign workers and their families living in Nepal, and the policies and practices that determine their daily lives. In this book, Heather Hindman calls for a consideration of the complex role that global middlemen and women play, not merely in implementing policies, but as objects of policy. Examining the lives of expatriate professionals working in Kathmandu, Nepal and the families that accompany them, Hindman unveils intimate stories of the everyday life of global mediators. *Mediating the Global* focuses on expatriate employees and families who are affiliated with international development bodies, multinational corporations, and the foreign service of various countries. The author investigates the life of expatriates while they visit recreational clubs and international schools and also examines how the practices of international human resources management, cross-cultural communication, and promotion of flexible careers are transforming the world of elite overseas workers.
