ECS Tuning - OEM / Performance / Maintenance / Repair ...
 Ecu Tuning ECU Tuning Group is North America's leading vehicle performance enhancer. Whether you drive a Mini Cooper or a Rolls Royce, our team of engineers guarantee that we will have software upgrades for the latest models before any other tuners in North America allowing the vehicles to perform like the factory engineers intended - leading

maximized power and driving pleasure. Home - ECU Tuning Group We explain the basics of ECU tuning. ECU Tuning ECU tuning is the art and science of cracking the code that the factory installs in your motorcycle's brain and giving it an upgrade. How It Works: The Basics of ECU Tuning When car manufacturers install an engine into a new vehicle, they have no idea where the buyer will live or the conditions under which he or she will be driving. So, they install a "one-size-fits-all" engine and overall system that meets today's emissions standards. Enter Engine

Control Unit (ECU) tuning. What Is ECU Tuning? | Advance Auto Parts ECU Tuning, also called Chip Tuning is a method of updating the electronic control units chip with higher performing software. Updating the ECU chips programming can raise horsepower, timing, fuel injection, electronic throttle control and valve timing. ECU Tuning | Chip Tuning | Electronic Control Unit | VR Tuned VR Tuned ECU Tuning, Gearbox Tuning, Tuning Box Kits, Tuning Tools for all Vehicles. ECU Tuning, Gearbox Tuning, Tuning Box Kits, Tuning Tools. Chip tuning is

changing or modifying an erasable programmable read only memory chip in an automobile's or other vehicle's electronic control unit (ECU) to achieve superior performance, whether it be more power, cleaner emissions, or better fuel efficiency. Engine manufacturers generally use a conservative electronic control unit map to allow for individual engine variations as well as infrequent servicing and poor-quality fuel. Chip tuning - Wikipedia The performance chip loads new, pre-tuned motor specific fuel maps onto your ECU and improves performance throughout the vehicle's power band. Whether your vehicle has stock ECU tuning or aftermarket modifications, our performance chip will adapt to your modifications and provide the tune necessary for your vehicle's individual setup. Performance Chips & ECU Tuning // Chip Your Car ... ECS Tuning began developing new parts in 1995 with an Audi S4 Big Brake Kit that gained popularity on the early Audi forums. From that first performance product, we have grown our Research & Development department to a team of highly skilled and

successful engineers with a passion for European performance cars. ECS Tuning - OEM / Performance / Maintenance / Repair ... Buy online performance chip for your car such as ECU chips, power and Flash programmers and Custom horsepower tuning. Performance Chip Tuning Racing ECU Car Chips Power Super Flash Unlike conventional tuning boxes RaceChips are intelligent tuning boxes that work like mini computers or "add-on ECUs" and modify a variety of electronic sensor signals in real time. Performance Chip vs. ECU Remapping Chip tuning is the latest form of electronic engine tuning. A device is installed between the engine's ECU and the sensors - it's a kind of mini-computer, if you like (which is why some people say digital tuning) which improves the parameters set by the manufacturer. RaceChip USA - Performance chip tuning made in Germany Chiptuning from DTE Systems: up to 30% more performance and a good sense of security. Get more horsepower for your car: Whether you are looking for a chip tuning for Mercedes, a BMW performance chip or more

power for your VW - with DTE you achieve a performance increase of up to 30%. And the best: a part certificate is already included for you. DTE Systems Chiptuning | More power and torque. Safe. What is ECU tuning? ECU Remapping (Electronic Control Unit tuning) is a process of changing product factory settings made by manufacturers and optimize car performance. Car remapping offers many options that can be improved or remove things like RMP power restrictions, better fuel efficiency or increase absolute boost and boost delivery. Chip Tuning File Service - ECU Tuning | Buy Online! | ... DTE Systems: The Technology Leader 20 years of innovative engine tuning. DTE Systems develops, manufactures and distributes intelligent engine power electronics which delight customers from more than 120 countries around the world. For more than 20 years, DTE has continued to lead the way with innovative products and world class customer service. As... Performance and throttle tuning | DTE Systems USA Chip tuning is the latest form of

electronic engine tuning. A device is installed between the engine's ECU and the sensors - it's a kind of mini-computer, if you like (which is why some people say digital tuning) which improves the parameters set by the manufacturer. Engine performance tuning by the global market leader Create and innovate Simply upload your (car / vehicle) factory ECU calibration file to our revolutionary patent pending ECU tuning software. All identification and ASAP2 - A2L verification is automatically carried out. View and select your desired calibration settings including DPF removal and EGR deactivations. ECU Remapping & Tuning Software from PrecisionCodeWorks ECU tuning involves modifying the fuel and spark maps of an engine. Many modern engines also have controls for camshaft timing and many other items that can affect power output. RRT has partnered with the premier tuners in the country to deliver to you an increase in horse power and torque. ECU Tuning, Piggyback, Standalones - Where to begin? To find out more

about how we can better improve the performance of your vehicle, please select your car manufacturer to view the ECU Tuning pricing options. Please contact us if your vehicle is not listed. All price's are subject to change, please call (877) 813 9700 for confirmation.

The performance chip loads new, pre-tuned motor specific fuel maps onto your ECU and improves performance throughout the vehicle's power band. Whether your vehicle has stock ECU tuning or aftermarket modifications, our performance chip will adapt to your modifications and provide the tune necessary for your vehicle's individual setup.
