is ruled by a once-revered hero, an ice-witch rules over the north, the Lions overrun the forests, evil twins approach from the West, and secrets hide in every shadow. Salvation for Oz comes from the unlikely wrench of young Victoria Wright, a father searching for his lost sons, a hero seeking redemption, an ill-mannered Munchkin (or three), and other friends along the way. Victoria comes

to find that the smallest of actions can have much larger implications, and the most insignificant of us can change the world. *New Jersey's Culture of Corruption* Arcana Studio This bilingual edition of recent verse by the celebrated Iranian filmmaker Abbas Kiarostami (award-winning director of such films as *Close-Up* and *Taste of Cherry*) includes English

translations of more than two hundred crystalline, haiku-like poems, together with their Persian originals. The translators, noted Persian literature scholars Ahmad Karimi-Hakkak and Michael Beard, contribute an illuminating introduction to Kiarostami's poetic enterprise, examining its relationship to his unique cinematic corpus and to the traditions of classic and contemporary Persian poetry. Where it exists, the literature on this crucial decade of the film director's life is scant and relies on Buñuel's own self-interested accounts of that complex period. Román Gubern and Paul Hammond have undertaken extensive archival research in Europe and the United States and evaluated Buñuel's accounts and those of historians and film writers to achieve a portrait of Buñuel's "Red Years" that abounds in new information. *Defiant Deviance* Univ of North Carolina Press Arranged marriages, the intoxicating allure of innocence, red-hot sex-- these sensual, seductive stories offer the best romance has to offer. The «supernatural

» elements depicted in this study encompass such monstrous representations as witches, vampires, angels, virgins, apparitions, and other universally recognized reflections of human existence - though not all «supernatural» representations are seen as «monstrous,» but as physical and psychological embodiments of common human experience. Contributors

to this project represent a wide scope of literary genres and eras, as well as differing theoretical approaches, united by the common goal of defining the «irreality of reality.» Doctor Who Ashgate Publishing, Ltd. modernity. Haiti is envisioned as being trapped in an endless cycle of violence and instability, Cuba as a 1950s time warp, Jamaicans as ganja-smoking Rastafarians, while numerous pristine, anonymous islands are simply peaceful idylls. The notion of 'getting away from it all' lures countless visitors, offering the possibility of total disconnect for

the world-weary. In *On the Move* Alejandra Bronfman argues that in fact the opposite is true; the Caribbean is, and has always been, deeply engaged with the wider world. From drugs and tourism to international political struggles, these islands form an integral part of world history and of the present, and are themselves in a constant state of economic and

social flux in the face of global transformations. [The Steam Engines of Oz Hardcover Edition](#) Harvard University Press Harold Berman's masterwork narrates the interaction of evolution and revolution in the development of Western law. This new volume explores two successive transformations of the Western legal tradition under the impact of the

sixteenth-century German Reformation and the seventeenth-century English Revolution, with particular emphasis on Lutheran and Calvinist influences. Berman examines the far-reaching consequences of these apocalyptic political and social upheavals on the systems of legal philosophy, legal science, criminal law, civil and economic law, and social law in Germany

and England and throughout Europe as a whole. Berman challenges both conventional approaches to legal history, which have neglected the religious foundations of Western legal systems, and standard social theory, which has paid insufficient attention to the communitarian dimensions of early modern economic law, including corporation law and social

welfare. Clearly written and cogently argued, this long-awaited, magisterial work is a major contribution to an understanding of the relationship of law to Western belief systems. *The Red Years, 1929-1939* Bucknell University Press This book reinvigorates the debate on the Mexican Revolution, exploring what this pivotal event meant to women. The

contributors offer a fresh look at women's participation in their homes and workplaces and through politics and community activism. They show how women of diverse backgrounds with differing goals were actively involved, first in military roles during the violent early phase of civil war, and later in the state-building process. Drawing on a variety of perspectives, the volume

illuminates the ways women variously accepted, contested, used, and manipulated the revolutionary project in Mexico. All too often, attention has been limited to elite, pro-revolutionary women's formal political activities, particularly their pursuit of suffrage. This timely volume broadens traditional perspectives, drawing on new scholarship that considers

grassroots participation in institution building and the contested nature of the revolutionary process. Recovering narratives that have been virtually written out of the historical record, this book brings us a rich and complex array of women's experiences in the revolutionary and post-revolutionary era in Mexico. *The New Sensibility* Harvard University Press As the first comprehensiv

e volume devoted entirely to women of both the Spanish and Austrian Habsburg royal dynasties spanning the sixteenth and the seventeenth centuries, this interdisciplinary collection illuminates their complex and often contradictory political functions and their interrelations across early modern national borders. The essays in this volume investigate

the lives of six Habsburg women who, as queens consort and queen regent, duchesses, a vicereine, and a nun, left an indelible mark on the diplomatic and cultural map of early modern Europe. Contributors examine the national and transnational impact of these notable women through their biographies, and explore how they transferred their cultural, religious, and political traditions as

the women moved from one court to another. Early Modern Habsburg Women investigates the complex lives of Philip II's daughter, the Infanta Catalina Micaela (1567-1597); her daughter, Margherita of Savoy, Vicereine of Portugal (1589-1655); and Maria Maddalena of Austria, Grand Duchess of Florence (1589-1631). The second generation of Habsburg women that the volume

addresses includes Philip IV's first wife, Isabel of Borbón (1602-1644), who became a Habsburg by marriage; Rudolph II's daughter, Sor Ana Dorotea (1611-1694), the only Habsburg nun in the collection; and Philip IV's second wife, Mariana of Austria (1634-1696), queen regent and mother to the last Spanish Habsburg. Through archival documents, pictorial and historical

accounts, literature, and correspondence, as well as cultural artifacts such as paintings, jewelry, and garments, this volume brings to light the impact of Habsburg women in the broader historical, political, and cultural contexts. The essays fill a scholarly need by covering various phases of the lives of early modern royal women, who often struggled to sustain their family loyalty while at the

service of a foreign court, even when protecting and preparing their heirs for rule at that same court.
