Blood Trail (Blood Vice Books 4-6) Violent Siren Press  
 Welcome to SPERO HEIGHTS... A little town where supernaturals who have lost their bump in the night go to recover. Tucked in the wooded Ozark Mountains, the humans are rarely cause for concern, but the citizens of Spero Heights have enough trouble to go around. Graham Pierce, the beloved mayor of Spero Heights, has finally returned home... but he's not alone. After a wild vampire chase prompted by one of Dr. Delph's visions, he stumbles across an apocalyptic affair resulting from his failure. The vampire in question is dead, leaving a curiously strong vamping in his place. Graham can't explain his fascination with her, and he has no idea what bringing her back to his quiet little haven in the Ozarks could mean for him or for all of Spero Heights. Eliza Wilson shouldn't have gone to her ten-year class reunion. Certainly not right after losing her job, and most definitely not after being served divorce papers by her husband's

attorney and latest conquest. When her high school stalker corners her in the parking lot for a little love bite and she wakes up with a more literal thirst for vengeance, that's the last straw. Hell hath no fury, because she brought it all back with her.

Lana Harvey isn't just any reaper. She's the new captain of the Posy Unit, a specialty group dedicated to harvesting mass quantities of souls from natural disaster sites, battlefields, and the like. The new title didn't come without a price though. Lana made some promises along the way, and now it's time to follow through... even if that means putting herself in the path of the three Fates, a fickle and mighty force to be reckoned with. Supernatural boot camp bites. Jenna Skye and her blood harem are off to train for Blood Vice in Denver. If they can survive three long months at the BATC (the Blood Authority Training Center, aka, the bat cave), they'll become official Blood Vice agents. But not everyone is thrilled about the duke allowing a baby vamping to train with the big fangs, and the undead have some pretty rotten ideas when it comes to hazing. The training program also opens Jenna's eyes to House Lilith politics, and she's soon swept away into the dark current of warring vampire families and an empire on the verge of collapse—an empire no one can know she's an heir to. The Bloody End (Blood Vice Books 7-8) Violent Siren Press

*Graveyard Shift: Book 1: The Inferno has Evolved...* Lana Harvey is a reaper, and a lousy one at that. She resides in Limbo City, the modern capital of the collective afterlives, where she likes to stick it to the man (the legendary Grim Reaper himself) by harvesting the bare minimum of souls required of her. She'd much rather be hanging out with Gabriel, her favorite archangel, at Purgatory Lounge. But when a shocking promotion falls in her lap, Lana learns something that could unravel the very fabric of Eternity. If the job isn't completed, there could be some real hell to pay. *Pocket Full of Posies: Book 2: The promise of peace in Limbo City is threatened once again, but this time the terrorists have a more specific target in mind: Lana Harvey. Absence makes the fangs grow fonder. Jenna thought becoming a

Blood Vice agent would solve all her problems, but now she's sworn to solve House Lilith's problems, too. And there's no shortage of trouble when dealing with the most regal vampire family in the United States. The duke's first assignment for Jenna and company is to locate Ursula, the estranged Duchess of House Lilith suspected of murdering her sire. It's a tall order—a wild bat chase, some might say—and the long hours with half-sired agent Roman Knight soon drive Jenna to distraction, and possible destruction. Lusting after another vampire's pending scion is a dangerous game, one with legal ramifications in Jenna's brave new underworld. New to Jenna and House Lilith? If you love urban fantasy with paranormal law enforcement and modern vampire royalty, begin this series with book one, *Blood Vice*, today!

Even those who have lost everything, still have something to lose. An American woman wakes up alone in a tent in the Norwegian mountains. Outside a storm rages and the fog is dense. Her phone is dead. She has no map, no compass, and no food. How she ended up there, and the tragic details of her life, emerge over the course of this novel. We discover that Jane is a novelist with a bad case of writer's block—she had come to Norway to seek out distant relatives and family history, but when her trip went awry, she tethered herself to a zoologist she met by chance on the plane, joining him on a trek to see the musk oxen of the Dovrefjell mountain range. At once elegant and gripping, *The Gradual Disappearance of Jane Ashland* moves seamlessly between Jane's life in America and the extraordinary landscape of the Norwegian mountains. As we gradually unpack the emotional debris of her past—troubled Midwestern parents, a loving courtship in New York, and a cruel, sudden tragedy that rearranged everything—we begin to understand what led her to this lonely landscape.

**Crazy Ex-Ghoulfriend** Violent Siren Press

Lana Harvey is back from the dead... Well, back from delivering the dead to the afterlives, anyway. The political and social landscape of Limbo City has gone through quite the makeover since the Throne of Eternity was broken and the souls in the sea took charge of their own destinies. But progress is a journey on the road less traveled. Which means potholes are inevitable. And who better to pave the way than the reaper who set all this upheaval into motion? Return to Limbo City with Lana and the gang! They'll have a cold ale waiting for you at Purgatory Lounge. New to the Lanaverse? If you love urban fantasy steeped in mythology, dark humor, gritty action, and paranormal romance, start at the very beginning with book one from the original Lana Harvey, *Reapers Inc.* series, *Graveyard Shift*, today!

The city is on lockdown to prevent the spread of time sickness, and now the clock is ticking. Tucked in the wooded Ozark Mountains, the humans are rarely cause for concern, but the citizens of Spero Heights have enough trouble to go around. Lia James would give anything to be normal. Struck with horrific, daily visions of death isn't what any sane person would consider gifted. Her only consolation is that Sheriff Saunders, her shady keeper, does what he can to change the outcome of her visions—at least, the ones that might lead to a swanky promotion. Christian Delph is not a normal doctor, and his patients' maladies are not found in the average medical journal. As the head therapist of Orpheus House in Spero Heights, he sees everything—and usually before it happens. The one thing he didn't see coming was Lia, and all the ways she would turn his fragile world inside out.

Late Boston is out of time. Winifred McCaffrey sold her soul when she agreed to work for the wealthy Abraham Orwell. As the head of New England's most progressive institute, Orwell has the funding to back his every vision, including visions that wander deep into the gray areas of legality and morality. Winifred has learned to look the other way. Without Orwell's backing, she'd never have been recognized as the top medical engineer of her time. When Ezra Huxley's famed time machine breaks reality, Orwell commissions Winifred to be his chief advisor at the Post Boston Infirmary. The position would be a dream come true if not for the horrific circumstances...and the fact that Winifred knows Orwell doesn't do anything out of the kindness of his dark, twisted heart. With hands as dirty as hers, Winifred fears she won't have what it takes to thwart Orwell's most diabolical vision yet. At least, not on her own.
