This is a story which will make your heart sing - a story for all the family to read together. Young Judy discovers an unexpected package in her grandfather's old study. She has never met her grandfather (Poppy) as he died before she was born, but Judy is the one to unearth the puzzle which Poppy left for his family. To find the treasure which Poppy left, the family must first solve every riddle which he wrote on a beautiful scroll, and carefully wrapped in a rich purple velvet bag. Unless they solve the puzzles, they won't find the treasure. See if you can solve the puzzles before the family does. What has Poppy left them as an inheritance? Have fun with the story and enjoy the Omega Prize at the end.

Women have a long history of keeping the lights burning, from tending ancient altar flames or bonfires to modern-day lighthouse keeping. Yet most of their stories are little-known. *Guiding Lights* includes true stories from around the world, chronicling the lives of the extraordinary women who mind the world's storm-battered towers. From Hannah Sutton and her partner Grant, the two caretakers living alone on Tasmania's wild Maatsuyker Island, to Karen Zacharuk, the keeper in charge of Cape Beale on Canada's Vancouver Island, where bears, cougars and wolves roam, the lives of lighthouse women are not for the faint of heart. Stunning photographs from throughout history accompany accounts of the dramatic torching of Puysegur Point, one of NZ's most inhospitable lighthouses; 'haunted' lighthouses in across the US and their tragic tales; lighthouse accidents and emergencies around the world; and two of the world's most legendary lighthouse women: Ida Lewis (US) and Grace Darling (UK), who risked their lives to save others. The book also explores our dual

perception of lighthouses: are they comforting and romantic beacons symbolizing hope and trust, or storm-lashed and forbidding towers with echoes of lonely, mad keepers? Whatever our perception, stories of women's courage and dedication in minding the lights — then and now — continue to capture our imagination and inspire.

The Essential Guide opens the door to the darkly resplendent worlds of the Left Hand Path. Part philosophical treatise, part ontological stand-up comedy, and part

magical practicum, this book makes clear what many other books have only hinted at. For people with wit and perseverance, this book is a training manual for supermen and women. Don Webb has been a practitioner of the Left hand path since the 1970s. He is the former High Priest of the Temple of Set, the world's largest Left Hand Path organization, and the author of the best-selling *Seven Faces of Darkness. Arms & Explosives* S. L. Millward

Georges Canguilhem is one of France's foremost historians of science. Trained as a medical doctor as well as a philosopher, he combined these practices to demonstrate to philosophers that there could be no epistemology without concrete study of the actual development of the sciences and to historians that there could be no worthwhile history of science without a philosophical understanding of the conceptual basis of all knowledge. *A Vital Rationalist* brings together for the first time a selection of Canguilhem's most important writings, including excerpts from previously unpublished manuscripts and a critical bibliography by Camille Limoges. Organized around the major themes and problems that have preoccupied Canguilhem throughout his intellectual career, the collection allows readers, whether familiar or unfamiliar with Canguilhem's work, access to a vast array of conceptual and concrete meditations on epistemology, methodology, science, and history. Canguilhem is a demanding writer, but Delaporte succeeds in marking out the main lines of his thought with unrivaled clarity; readers will come away with a heightened understanding of the complex and crucial place he holds in French intellectual history. Georges Canguilhem is Professor Emeritus at the Sorbonne and former director of the Institut d'Histoire des Sciences et des Techniques de l'Université de Paris. His works include *La Connaissance de la Vie*, *Ideology and Rationality in the History of the Life Sciences*, and *The Normal and the Pathological*. François Delaporte is a Research Associate at the Institut National de la Santé et de la Recherche Médicale in Paris. He is the author of *Disease and Civilization* and *The History of Yellow Fever*.
