Kurdish Armour Against  
ISIS University of Michigan  
Press

One of the most remarkable mechanized campaigns of recent years pitted the brutal and heavily armed jihadis of Islamic State against an improvised force belonging to the Kurdish YPG (later the SDF). While some Kurdish vehicles were originally from Syrian Army stocks or captured from ISIS, many others were extraordinary homemade AFVs based on truck or digger mechanicals, or duskas,

the Kurds' version of the technical. Before US air power was sent to Syria, these were the Kurds' most powerful and mobile weapons. Co-written by a British volunteer who fought with the Kurds and an academic expert on armoured warfare, this study explains how the Kurds built and used their AFVs in the war against 'Daesh', and identifies as far as possible which vehicles took part in major battles, such as Kobane, Manbij and Raqqa. With detailed new artwork depicting the

Kurds' range of armour and many previously unpublished photos, this is an original and fascinating look at modern improvised mechanized warfare.

Une enquête captivante au coeur des services secrets de Daech Des tortionnaires encagoulés de noir pour effrayer les foules en Syrie ; les mêmes habillés en civil, barbe rasée, postiche sur la tête et cigarette aux lèvres pour ne pas attirer l'attention en Europe :

l'État islamique s'est doté d'un « bureau des légendes » djihadiste. Faux attentats pour masquer les vrais, tentatives d'infiltration de la fonction publique : pour la première fois, une enquête révèle le fonctionnement de ces services spéciaux qui depuis Raqqa pilotaient les attentats du 13-Novembre, leurs techniques, leurs ressources, ainsi que le parcours du Français qui en fut la tête pensante. Un travail d'investigation colossal, qui s'appuie sur

plus de 77 000 procès-verbaux de police et de justice, des centaines de notes des services secrets et sur une quarantaine d'entretiens conduits auprès de magistrats, d'officiers de renseignement, de victimes du terrorisme, de djihadistes et de leurs familles. A propos de l'auteur : Matthieu Suc est journaliste pour Mediapart et l'auteur de quatre livres, dont Femmes de djihadistes (Fayard, 2016). Autrefois spécialisé dans le grand banditisme, il consacre aujourd'hui

l'essentiel de son travail aux affaires liées au terrorisme.

*Drones and Responsibility* Youth, Class and Everyday Struggles  
For more than a century successive US and UK governments have sought to thwart nationalist, socialist and pro-democracy movements in the Middle East. Through the Cold War, the 'War on Terror' and the present

era defined by the Islamic State, the Western powers have repeatedly manipulated the region's most powerful actors to ensure the security of their own interests and, in doing so, have given rise to religious politics, sectarian war, bloody counter-revolutions and now one of the most brutal incarnations of Islamic extremism ever seen. This is the utterly compelling, systematic dissection of Western interference in the Middle East. Christopher Davidson exposes the

dark side of our foreign policy – dragging many disturbing facts out into the light for the first time. Most shocking for us today is his assertion that US intelligence agencies continue to regard the Islamic State, like al-Qaeda before it, as a strategic but volatile asset to be wielded against their enemies. Provocative, alarming and unrelenting, *Shadow Wars* demands to be read – now. *Auto Repair For Dummies* Lulu Press, Inc »Frieden schaffen« ist das

gemeinsame große Ziel vieler internationaler Akteure in Kriegs- und Krisengebieten. In der Praxis sind sie jedoch mit unterschiedlichsten Aufgaben betraut. Basierend auf qualitativen Interviews mit zurückgekehrten Praktiker\_innen entwickelt Julika Bake ein vielschichtiges, dichtes Bild des Interventionsalltags. Sie zeigt auf, wie sich Angehörige verschiedener Berufsfelder in ihren Erzählungen über die Arbeit vor Ort

positionieren, und geht der Frage nach, inwieweit die Unterscheidung von Intervenierenden in die Kategorien »zivil« und »militärisch« zu einem besseren Verständnis von internationalen Interventionen beiträgt.

Kriminalroman Harper Collins  
Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight

percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much

easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone

who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs. *Anthology and Annotated Bibliography* Grada Publishing a.s. als TV-Serie Algerien: Afrikas größtes Land, mit Reichtum gesegnet, im Innersten zerrissen. Hier wird ein deutscher Rüstungsmanager entführt, angeblich von islamistischen Terroristen, so der algerische Geheimdienst. Doch für BKA-Mann Ralf Eley, an der deutschen Botschaft in Algier stationiert, passen zu viele Puzzlestücke nicht zusammen. Allerdings kann er nicht ermitteln, ohne die Ausweisung zu riskieren. Also tut er es diskret, mithilfe der

algerischen Untersuchungsrichterin Amel, seiner heimlichen Geliebten. Bald wird klar, dass es um viel mehr geht als um das Leben eines Entführten. Denn zahlreiche Spuren führen nach Deutschland, zu einem schwäbischen Waffenhersteller. Und Eley begreift: Wenn er die Wahrheit ans Licht bringen will, muss er alles aufs Spiel setzen. Auf virtuose Weise verwebt Oliver Bottini das Thema (deutsche) Rüstungsexporte in einem mitreißenden

Kriminalroman. Präzise lotet er die Untiefen von Macht und Unterdrückung aus und führt mit eindrucksvoller Intensität vor Augen, woran das System immer kranken wird – am Mangel an Menschlichkeit. Selten gelingt es so exzellent, politische Geschichte in einem spannenden Plot zu vergegenwärtigen.«

Analysing developments in digital technologies and institutional changes, this book provides an overview of the current frenetic state of transformation within the global automobile industry. An ongoing transition brought about by the relocation of marketing, design and production centres to emerging economies, and experimentation with new

mobility systems such as electrical, autonomous vehicles, this process poses the question as to how original equipment manufacturers (OEMs) and newcomers can remain competitive and ensure sustainability. With contributions from specialists in the automobile sector, this collection examines the shifts in power and geographical location occurring in the industry, and outlines the key role that public policy has in generating innovation in entrepreneurial states.

Offering useful insights into the challenges facing emerging economies in their attempts to grow within the automobile industry, this book will provide valuable reading for those researching internationalization and emerging markets, business strategy and more specifically, the automotive industry. The Global Status Report  
on Road Safety 2018,  
launched by WHO in  
December 2018,  
highlights that the  
number of annual road  
traffic deaths has reached  
1.35 million. Road traffic

injuries are now the  
leading killer of people  
aged 5-29 years.The  
burden is  
disproportionately borne  
by pedestrians, cyclists  
and motorcyclists, in  
particular those living in  
developing countries. The  
report suggests that the  
price paid for mobility is  
too high, especially  
because proven measures  
exist. Drastic action is  
needed to put these  
measures in place to  
meet any future global  
target that might be set  
and save lives.
