LOGAN O'DONNELL

The Blue Book of Grammar and Punctuation John Wiley & Sons
New Zealand English (NZE) is one of the younger post-colonial varieties of English. It is therefore not surprising that previous research focused on lexical and phonological aspects of NZE and practically neglected grammatical peculiarities. *New Zealand English Grammar — Fact or Fiction?* presents a careful comparative analysis of parallel

corpora of New Zealand, British, American and Australian English in order to single out morphological, syntactic and lexico-grammatical features typical of an emerging New Zealand standard. In addition to corpus data on regional variation, the author uses data on short-term diachronic change within British and American English to show how regional variation is closely related to both stylistic variation (a world-wide colloquialisation of the written norms of English) and ongoing linguistic change leading to temporal regional differences. NZE is different from other national

varieties of English in terms of preferences for certain variants rather than categorically different grammatical rules. Nevertheless, it is a standard in its own right in so far as it is a typical mix of variants available in World English. The methodological approach combines both qualitative analyses and statistical evidence. The question in how far statistically significant differences in word frequencies can be shown to be linguistically significant is also relevant for other quantitative research into emerging national standards.

Abridgment of Murray's English Grammar John Benjamins Publishing
English Grammar helps aspirants to prepare for various competitive examinations. The book comprises of rules and exercises. The book has been

written to aid students who are preparing for competitive examinations such as SSC, Bank PO, Railway, UPSC exams and CDS.

Grammar Acme a point of perfection private limited

A book on Grammar

High School English Grammar and

Composition John Benjamins Publishing

This book describes an approach to lexis and grammar based on the concept of phraseology and of language patterning arising from work on large corpora. The notion of 'pattern' as a systematic way of dealing with the interface between lexis and grammar was used in Collins Cobuild English Dictionary (1995) and in

the two books in the Collins Cobuild Grammar Patterns series (1996; 1998). This volume describes the research that led to these publications, and explores the theoretical and practical implications of the research. The first chapter sets the work in the context of work on phraseology. The next two chapters give several examples of patterns and how they are identified. Chapters 4 and 5 discuss and exemplify the association of pattern and meaning. Chapters 6, 7 and 8 relate the concept of pattern to traditional approaches to grammar and to discourse. Chapter 9 summarizes the book and adds to the theoretical discussion, as well as indicating the applications of this approach to language teaching. The volume is intended to contribute to the current

debate concerning how corpora challenge existing linguistic theories, and as such will be of interest to researchers in the fields of grammar, lexis, discourse and corpus linguistics. It is written in an accessible style, however, and will be equally suitable for students taking courses in those areas.

Fundamentals of English Grammar S.

Chand Publishing

Mastering English Grammar is a start-at-the-basics, no-nonsense English Grammar book, not only for students of English, but also for those studying modern languages, business people and secretaries - in fact anyone who has forgotten/never known the simple rules of the language they speak.

Marvelous English Grammar

Cartwright Press

The main aim of this book is to make advanced students of English understand grammatical categories and their inter-relationships. Each section in a chapter is based on the discussion of a grammatical category along with illustrative sentences. This book can be used as a coursebook for BA (Hons) English, B.Ed (English Methods), MA English, M. Phil English, and the Post Graduate Diploma in the teaching of English.

The elements of English grammar S.

Chand Publishing

English grammar has changed a great deal since the beginning of the Twentieth Century, and it is a subject that can provide a complex minefield of uncertainties within the language. This accessible and comprehensive dictionary

comes to the aid of both the general reader and the student or teacher, offering straightforward and immediate A-Z access to 1,000 grammatical terms and their meanings. All the currently accepted terms of grammar are included, as well as older, traditional names, controversial new coinages, and items from the study of other languages. Concise definitions of the wider subject of linguistics, including phonetics and transformational grammar, are accompanied by examples of language in use, and frequent quotations from existing works on grammar.

Cambridge Advanced Learner's Dictionary Prentice Hall

"The world's most trusted grammar source for clear, direct, and comprehensive instruction, the Azar-Hagen Grammar Series - including Fundamentals of English Grammar for lower-intermediate and intermediate English language learners - blends grammar instruction with communicative methods. Grammar is the springboard for developing all language skills: speaking, listening, reading, and writing. With clear, user-friendly charts and engaging, interactive practice, it's easy to see why this classic series remains the top-selling text in its field year after year." -- Publisher's description

Learners' English Grammar And Composition (On Modern Lines) Pearson Education ESL

A shortened version of A Comprehensive

Grammar of the English Language especially aimed at students of grammar in colleges and universities, drawing on linguistic research and including coverage of the differences between written and spoken English and between British and American English.

New Beginner'S English Grammar, 3
S. Chand Publishing

Basic English Grammar is a classic developmental skills text for beginning students of English as a second or foreign language. It uses a grammar-based approach integrated with communicative methodologies to promote the development of all language skills. While keeping the same basic approach and materials as in earlier editions, the fourth edition continues to build on the foundation of understanding form and

meaning by engaging students in meaningful communication about real actions, real things, and their own lives in classroom context. Several of the new features are: Information in the grammar charts highlighting important differences between spoken and written English; Step-by-step writing activities with models for students to follow; Innovative warm-up exercises that precede the grammar charts and introduce points to be taught; Newly created exercises to give students more incremental grammar practice; Structure-based listening exercises that introduce students to relaxed, reduced speech"-- Page 4 of cover.

New English Grammar Series

Course In English Grammar,A Orient Blackswan

This series seeks to synthesize the essentials of traditional grammar and

the main aspects of communicative functional grammar. These books help students to form correct sentences and use the language effectively in real-life situations. Special attention has been given to the points of structure and usage which are a problem to non-native speakers of English

New Zealand English Grammar -

Fact or Fiction? Palala Press

High School English Grammar &

Composition is one of the most

renowned reference guides to learn

English Grammar in India. This is a part

of the series of books by Wren and

Martin, and it provides a comprehensive

study of grammar. First published in

1935, this grammar book is now being

used extensively in numerous schools

across Pakistan, India, and Burma. This

book has been divided into two sections, containing 84 chapters in total. The first part is about Grammar and the second part is about Composition. Some chapters include Synthesis of Sentences, Conjunctions, Direct and Indirect Speech, Comparison of Adverbs, and The Noun: Kinds of Nouns. The content of this book has been greatly influenced by The Manual of English Grammar and Composition authored by J. C. Nestfield. Through the course of this book, the authors have dealt with the very basics of grammar such as forming sentences, identifying subject and predicate, verbs, using adjectives as nouns, relative pronouns, and much more. The readers are also provided with insights into writing an essay, autobiographies, letters, and stories. High School English

Grammar & Composition contains numerous exercises on grammar and composition that will help the readers test themselves from every angle.
