Building Resilient Communities that Transform Schools

Cengage Learning
Are you maximizing every opportunity to connect with participants

before, during and after training? This is the key to optimizing the learning experience of every individual and the focus of these 125 tested and proven-effective activities for trainers. The Activities are grouped under five critical points of contact trainers have with participants. Based on the principles of accelerated and adult learning, the activities have sound objectives. But

they are also fun. Some utilize all the senses. Many get participants on their feet and moving around. Others encourage participants to reveal what they already know and apply what they learn. The activities are formatted for easy use with clearly marked objectives, best occasion to use them, group size, estimated time equipment and supplies needed and materials.

Many of the activities have ready-to-use handouts. 50 Communications Activities, Icebreakers, and Exercises Redleaf Press Moving Beyond Icebreakers contains 440 pages packed with insight and ideas about building community, engaging students in learning, and making meetings work. It describes an innovative meeting format and documents over 300 interactive

exercises (not just "icebreakers") that enable readers to: * Achieve group goals * Build relationships * Resolve group problems * Teach, lead, motivate, and inspire The first 130 pages describe how to use "icebreakers" and other interactive methods to help group members make decisions, create new ideas, solve problems, resolve conflicts, and understand new concepts.

In these pages you will find a five-part meeting structure that you can use to become an expert facilitator, following an approach that engages both youth and adults in meeting the group's goals. You will also find detailed agendas, lesson plans, and scenarios that show how this approach works in the real world. Table of contents: * Why use interactive methods? * Working into interaction *

innovative reformers and for more traditional leaders alike. It provides a solid set of interesting and shrewd suggestions that can be used immediately by practising principals' - From the Foreword by Kent D Peterson, Professor, Department of Educational Administration , University of Wisconsin, Madison Despite the administrative leadership training that most principals

receive in university courses, their most useful learning doesn't occur until they are on the job. And the new knowledge - much of it the result of trial and error, success and failure - is gained in relative isolation, simply because there is no one else at that responsibility level within the school. Pam Robbins, an educational consultant and Harvey B Alvy, a practicing principal, offer

a well-organized, interactive manual for the role of principal. They have worked with hundreds of schools, educators, and other organizations around the world, collecting data that form the basis for The Principal's Companion. This easy-to-read book combines the most helpful 'tried-and-true' strategies with the most relevant leadership research and theory. The authors

your cues may be the problem - and the solution. Cues - the tiny signals we send to others 24/7 through our body language, facial expressions, word choice, and vocal inflection - have a massive impact on how we, and our ideas, come across. Our cues can either enhance our message or undermine it. In this entertaining and accessible guide to the hidden language of

cues, Vanessa Van Edwards teaches you how to convey power, trust, leadership, likeability, and charisma in every interaction. You'll learn: • Which body language cues assert, "I'm a leader, and here's why you should join me." • Which vocal cues make you sound more confident • Which verbal cues to use in your résumé, branding, and emails to increase trust (and generate excitement about

interacting with you.) • Which visual cues you are sending in your profile pictures, clothing, and professional brand. Whether you're pitching an investment, negotiating a job offer, or having a tough conversation with a colleague, cues can help you improve your relationships, express empathy, and create meaningful connections with lasting impact.
