Labour in the Age of Platform Capitalism Cengage Learning

A dramatic account of the Americans who tried to stop their nation from fighting in the First World War—and came close to succeeding. In this "fascinating" (Los Angeles Times) narrative, Michael Kazin brings us into the ranks of one of the largest, most diverse, and most sophisticated peace coalitions in US history. The activists came from a variety of backgrounds: wealthy, middle, and working class; urban and rural; white and black; Christian and Jewish and atheist. They mounted street demonstrations and popular exhibitions, attracted prominent leaders from the labor and suffrage movements, ran peace candidates for local and federal office, met with President Woodrow Wilson to make their case, and founded new organizations that endured beyond the cause. For almost three years, they helped prevent Congress from authorizing a massive increase in the size of the US army—a step advocated by ex-president Theodore Roosevelt. When the Great War's bitter legacy led to the next world war, the warnings of these peace activists turned into a tragic prophecy—and the beginning of a surveillance state that still endures today. Peopled with

unforgettable characters and written with riveting moral urgency, *War Against War* is a "fine, sorrowful history" (The New York Times) and "a timely reminder of how easily the will of the majority can be thwarted in even the mightiest of democracies" (The New York Times Book Review).

The Leadership Experience Cengage Learning

Globalization evokes mixed responses. It is praised for facilitating business, greater trade between nations and reducing poverty, and is also accused of causing job losses and homogenizing culture. While some nations cheer its benefits, others think of barriers to protect themselves. Yet, everyone agrees that it is a multidimensional and complex process that continuously reshapes our environment. Rather than wonder whether globalization is good or bad, it is important to understand how it impacts nations, organizations and individuals and be prepared to operate in that context.
