Rethinking Thought takes readers into the minds of 30 creative thinkers to show how greatly the experience of thought can vary. It is dedicated to anyone who has ever been told, "You're not thinking!", because his or her way of thinking differs so much from a spouse's, employer's, or teacher's. The book focuses on individual experiences with visual mental images and verbal language that are used in planning, problem-solving, reflecting, remembering, and forging new ideas. It approaches the question of what

thinking is by analyzing variations in the way thinking feels. Written by neuroscientist-turned-literary scholar Laura Otis, *Rethinking Thought* juxtaposes creative thinkers' insights with recent neuroscientific discoveries about visual mental imagery, verbal language, and thought. Presenting the results of new, interview-based research, it offers verbal portraits of novelist Salman Rushdie, engineer Temple Grandin, American Poet Laureate Natasha Trethewey, and Nobel prize-winning biologist Elizabeth Blackburn. It also depicts the unique mental worlds of two award-winning painters, a flamenco dancer, a game designer, a cartoonist, a lawyer-novelist, a theoretical physicist, and a creator of multi-agent software. Treating scientists and artists with equal respect, it creates a dialogue in which neuroscientific findings and the introspections of creative thinkers engage each other as equal partners. The interviews presented in this book indicate that many creative people enter fields requiring skills that don't come naturally. Instead, they choose professions that demand the hardest work and the greatest mental growth. Instead of classifying people as "visual" or "verbal," educators and managers need to consider how thinkers combine visual and verbal skills and how those abilities can be further developed. By showing how greatly individual experiences of thought can vary, this

book aims to help readers in all professions better understand and respect the diverse people with whom they work.

Putting Your Words to Work: Learn to Use the Voice of Authority Random House Books for Young Readers

When God created man, the earth, and the realms of time and space, He did so with the voice of authority. Man was made in the image and after the likeness of God as a speaking spirit with a voice designed to speak with authority in the earth. It may sound seemingly unrealistic, but if any part of the body of Christ speaks with His authority, they are entitled to the same results that Jesus experienced in His body while He was on the earth. This book outlines and details how believers are to use their voice, release their authority to transform their lives, and impact the lives of those around them. If you want something that works for a lifetime, you will find proven things that work in these pages.

A Simple Strategy to Engage, Inspire, and Empower Your Team

Thomas Nelson

Living Out the Word Made Flesh “Sixty years ago I found myself distracted,” Eugene Peterson wrote. “A chasm had developed between the way I was preaching from the pulpit and my deepest convictions on what it meant to be a pastor.” And so began Peterson’s journey to live and teach a life of congruence—congruence between preaching and living, between what we do and the way we do it, between what is written in Scripture and how we live out that truth. Nothing captures the biblical foundation for this journey better than Peterson’s teachings over his twenty-nine years as a pastor. As *Kingfishers Catch Fire* offers a never-before-published collection of these teachings to anyone longing for a richer, truer spirituality. Peterson’s strikingly beautiful prose and deeply grounded insights usher us into a new understanding of how to live out the good news of the Word made flesh. This is one man’s compelling quest to discover not only how to be a pastor but how to be a human being.
