Now the standardisation work of DAB (Digital Audio Broadcasting) system is finished many broadcast organisations, network providers and receiver manufacturers in European countries and outside of Europe (for example Canada and the Far East) will be installing DAB broadcast services as pilot projects or public services. In addition some value added services (data and video services) are under development or have already started as pilot projects. The new digital broadcast system DAB distinguishes itself from existing conventional broadcast systems, and the various new international standards and related documents (from ITU-R, ISO/IEC, ETSI, EBU, EUREKA147, and others) are not readily available and are difficult to read for users. Therefore it is essential that a well structured technical handbook should be available. The Second Edition of Digital Audio Broadcasting has been fully updated with new sections and chapters added to reflect all the latest developments and advances. Digital Audio Broadcasting: Provides a fully updated comprehensive overview of DAB Covers international standards, applications and other technical issues Combines the expertise of leading researchers in the field of DAB Now covers such new areas as: IP-Tunneling via DAB; Electronic Programme Guide for DAB; and Metadata A comprehensive overview of DAB specifically written for planning and system engineers, developers for professional and domestic equipment manufacturers, service providers, as well as postgraduate students and lecturers in communications technology.

À Toulouse, au matin du 22 septembre 2001, Alexandra Richard et Christopher Ross n'ont que

quelques minutes pour préparer leur fuite. Le dirigeant de l'organisation Sentinum, Karl Haustein, veut leur peau et rien ne l'arrêtera dans sa quête de vengeance. Le vieillard infatigable animé d'une volonté dévastatrice refuse d'envisager la défaite. Il a lancé sur leurs traces ses plus dangereux agents matricules. De l'Europe à l'Amérique, la chasse est ouverte pour retrouver Alexandra et Christopher. Sur terre, en mer et dans les airs, tous les coups seront permis. Emportés dans un tourbillon de vérités et de faux-semblants, ils devront démêler le vrai du faux, au risque de perdre ce qu'ils ont de plus précieux: leur amour. À travers l'adversité, ce sentiment intense qui les lie sera mis à rude épreuve. La loyauté et le courage montreront alors leur vrai visage. Ils se rendront compte que leur pire ennemi n'était peut-être pas celui qu'ils croyaient. Dans cet univers où les secrets font la loi, il se pourrait bien que leur salut ait pris naissance en 1417, au château de Sentinum, à Sion, en Suisse. Cette année-là eut lieu la dernière initiation sacrificielle de l'organisation. Une jeune femme courageuse, Catherine Dinan, fut la première à oser défier Sentinum. En luttant contre la fatalité de son destin, elle ouvrit la voie à une résistance héroïque envers la puissante organisation dont l'écho résonne encore à notre époque.

La bête est-elle réellement celle que l'on croit ? Le corps d'un notable est retrouvé éborgné en plein centre de Brive. Tout laisse à penser qu'un animal dangereux erre dans les rues de la ville. À la suite de son affectation au commissariat de la cité gaillarde, le lieutenant Gabriel Marcini est chargé de l'enquête. Après une longue période de soins, il reprend du service dans un climat tendu, d'autant qu'une seconde victime est bientôt découverte, déchiquetée, sur les bords de la Corrèze. L'animal serait-il dressé pour tuer ? Tirailé entre une affaire difficile, la garde de sa fille et la suspicion de ses nouveaux collègues, Marcini doit aussi faire face à ses démons... qui ne sont pas si vieux. La bête est-elle réellement celle que l'on croit ? Suivez pas à pas les investigations du lieutenant Gabriel Marcini qui tente de comprendre quel est l'animal dangereux qui erre dans les rues de la ville.

EXTRAIT Un grognement grave roule tout près. Angélique émerge de son sommeil. Nue sous le drap blanc, elle ouvre les yeux. Black, le chien de Marcini, se dresse au-dessus d'elle. Les crocs saillants, il écume. Les oreilles tendues vers l'arrière, ses yeux rouges sang la transpercent. Soudain, Gabriel, nu lui aussi, se jette sur elle. Ses canines arrachent la carotide de l'infirmière d'une morsure animale ! Le lieutenant se réveille en sursaut. Le visage en sueur, il sent le corps chaud d'Angélique contre le sien. La tête posée au creux de son épaule, elle s'éveille à son tour et lève ses yeux azur vers Gabriel. À PROPOS DE L'AUTEUR Depuis plus de vingt ans, Frank Klarczyk est un "policier de la rue". Après avoir fait ses premières armes en région parisienne, il a exercé dans le Pas de Calais où sont ses racines. Puis, tombé sous le charme du Sud-Ouest, il a aujourd'hui obtenu sa mutation en Corrèze. Cinéphile et passionné de littérature policière, il apprécie les auteurs américains Harris, Connelly, King, Lehane comme les auteurs français Grangé, Chattam et, surtout, Thilliez. Utilisant sa profession comme source d'inspiration, il nous entraîne dans une enquête rythmée et nous plonge dans le monde, méconnu, de la Police.

Après Parrains et Caïds, véritable « Who's who » du grand banditisme, voici le récit de leurs évasions. Un tour de France inédit des « belles » les plus folles, les plus cocasses, les plus dures, les plus kamikazes, les plus sportives, les plus rusées, les plus fraternelles, les plus aériennes et les plus amoureuses de ces trente dernières années. Vous y découvrirez comment des hommes enfermés à triple tour dans les pénitenciers les plus sûrs parviennent à fausser compagnie à leurs geôliers. Comment ils jouent leur vie et parfois celle des autres pour échapper à la prison. Comment ils exploitent toutes les failles de l'âme humaine – appât du gain, séduction, terreur – pour abrégier leur isolement. Une enquête qui puise aux meilleures sources, celles de la police judiciaire et de la justice, pour raconter, à la façon du polar, cet instant souvent très bref où tout bascule : celui où le bandit brise les chaînes et s'arrache à son cachot. Un livre au cœur du monde carcéral qui donne un autre goût au mot « liberté ». Frédéric Ploquin, auteur de Parrains et caïds, est grand reporter au journal Marianne.

The Audio Expert is a comprehensive reference that covers all aspects of audio, with many practical, as well as theoretical, explanations. Providing in-depth descriptions of how audio really works, using common sense plain-English explanations and mechanical analogies with minimal math, the book is written for people who want to understand audio at the deepest, most technical level, without needing an engineering degree. It's presented in an easy-to-read, conversational tone, and includes more than 400 figures and photos augmenting the text. The Audio Expert takes the intermediate to advanced recording engineer or audiophile and makes you an expert. The book goes far beyond merely explaining how audio "works." It brings together the concepts of audio, aural perception, musical instrument physics, acoustics, and basic electronics, showing how they're intimately related. Describing in great detail many of the practices and techniques used by recording and mixing engineers, the topics include video production and computers. Rather than merely showing how to use audio devices such as equalizers and compressors, Ethan Winer explains how they work internally, and how they are spec'd and tested. Most explanations are platform-agnostic, applying equally to Windows and Mac operating systems, and to most software and hardware.

TheAudioExpertbook.com, the companion website, has audio and video examples to better present complex topics such as vibration and resonance. There are also videos demonstrating editing techniques and audio processing, as well as interviews with skilled musicians demonstrating their instruments and playing techniques.
