"Amazzone's voice is strong and clear.

Goddess Durga promises the transformation, empowerment, and dignity that is our

birthright."--Marisa Tomei, Academy Award-winning actor. Report Om Books International  
In the months leading up to Independence, in Delhi, Jawaharlal Nehru and Vallabhbhai Patel are engaged in deliberations with British Viceroy Dickie Mountbatten over the fate of the country. In Lahore, Sepoy Malik returns home from the Great War hoping to win his sweetheart Tara's hand in marriage, only to find divide-and-rule holding sway, and love, friendships, and familial bonds being tested. Set in parallel threads across these two cities, Lahore is a behind-the-scenes look into the negotiations and the political skulduggery that gave India its freedom, the

price for which was batwara. As the men make the decisions and wield the swords, the women bear the brunt of the carnage that tears through India in the sticky hot months of its cruellest summer ever. Backed by astute research, *The Partition Trilogy* captures the frenzy of Indian independence, the Partition and the accession of the states, and takes readers back to a time of great upheaval and churn.

This book, first published in 1962, is an analysis of the history of the philosophy of a country that has never distinguished philosophy from religion. Indian philosophy is not

merely metaphysical speculation, but has its foundation in immediate perception. This insistence upon immediate perception rather than abstract reasoning is what distinguishes the Indian philosophy of religion from philosophy as Western nations know it.

The Hindu-derived meditation movement, *The Art of Living (AOL)*, founded in 1981 by Sri Sri Ravi Shankar in Bangalore, has grown into a global organization which claims presence in more than 150 countries. Stephen Jacobs presents the first comprehensive study of AOL as an important transnational movement and an alternative global

spirituality. Exploring the nature and characteristics of spirituality in the contemporary global context, Jacobs considers whether alternative spiritualities are primarily concerned with individual wellbeing and can simply be regarded as another consumer product. The book concludes that involvement in movements such as AOL is not necessarily narcissistic but can foster a sense of community and inspire altruistic activity.

Lakshmi is the goddess of all that is good-wealth (dhana), beauty (saundarya) and happiness (sukha). As Vishnu's consort and in

her incarnations as Sita and Rukmini, she represents the ideal of femininity in Hinduism. She is also Shri, the goddess of fertility and grain, and Mahalakshmi, the amalgam of the goddesses Kali, Lakshmi and Sarasvati. She is benevolent and generous, yet it takes surprisingly little to offend her. And when she leaves, her place is taken by Alakshmi, all that Lakshmi is not-poverty, pestilence and ill fortune. How did this popular and accessible goddess come to represent these qualities? R.

Mahalakshmi presents an evocative picture of the mythical and historical development of the goddess Lakshmi. Using a range of sources, from ancient texts to

sculptures and everyday religious customs and prayers, this fascinating and deeply-insightful book sheds new light not only on the figure of Lakshmi, but also on the fundamental tenets of Hinduism as it is practised today.

The population of the South Asian Diaspora in the US is over 2.5 million people. Yet in a post 9/11 climate of opinion, little is known about this group beyond images of Muslim and Hindu fundamentalists and terrorists. This is particularly true of

women where simplistic assumptions about veils and subordination obscure the voices of the women themselves. Rarely are Hindu and Muslim American women—many of whom are social workers, physicians, lawyers, academics, students, homemakers—asked about their everyday lives and religious beliefs. *Living our Religions* brings out these hidden stories from South Asian American women of Bangladeshi, Pakistani, Indian and Nepali origin. Their accounts show how diverse and culturally dynamic religious practices emerge within the intersection of histories and politics of specific locales. The authors describe the race,

gender, and ethnic boundaries they encounter; they also document how they resist and challenge these boundaries. Living our Religions cuts through the myths and ethnocentrism of popular portrayals to reveal the vibrancy, courage and agency of an invisible minority.

It must be acknowledged that any solutions to anthropogenic Global

Climate Change (GCC) are interdependent and ultimately inseparable from both its causes and consequences. As a result, limited analyses must be abandoned in favour of intersectional theories and practices. Emergent Possibilities for Global Sustainability is an interdisciplinary collection which addresses global climate change and sustainability by engaging with the issues of race, gender, and class through an intersectional lens. The book challenges readers to foster new theoretical and practical linkages and to think beyond the traditional, and oftentimes reductionist, environmental science frame by examining

issues within their turbulent political, cultural and personal landscapes. Through a variety of media and writing styles, this collection is unique in its presentation of a complex and integrated analysis of global climate change and its implications. Its companion book, *Systemic Crises of Global Climate Change*, addresses the social and ecological urgency surrounding climate change and the need to use intersectionality in both theory and practice. This book is a valuable resource for academics, researchers and both undergraduate and post-graduate students in the areas of Environmental Studies, Climate Change, Gender Studies and International studies as

well as those seeking a more intersectional analysis of GCC. *The Great Indian Novel* Hindu Academy "The scenario in rural India is getting complex day by day. Rural development projects appear to be highly ineffective in eliminating poverty and unemployment. As a consequence, human rights violations are becoming everyday phenomena in the countryside. With the encouragement of privatization of resources, the multinational companies are entering into the rural hinterlands to exploit these resources. The problem will become more serious and worrying in the years to come. This comprehensive volume examines the

emerging seriousness in respect of rural development activities and assures the values of human rights to the masses of rural India. It also tries to locate the common agreement among the contributors visualizing the ground realities on rural development and human rights violations through micro-macro analysis. It is hoped that this volume will generate an intellectual debate on this vital issue of social concern among

thinkers and policy makers."
