The Dilemma of Muslim Psychologists Walter de Gruyter

In the hierarchy of Islamic faith and religious duties, zakat is next only to the acclamation of Allah's unity and prophecy of Muhammad (peace be unto him) and the five daily prayers. It is rather significant that a measure of far-reaching economic consequences should find such a high place in that hierarchy and be counted as one of the five pillars of Islam. Zakat is doubly important in the way of life that is Islam. On the one hand, it is a means of spiritual purification and, on the other, a way to regain balance and equilibrium in social and economic life. One would expect religious scholars and economists not to miss these points and pay due attention to this unique institution. However, the subject of zakat did not attract the attention of contemporary scholars to an extent commensurate with its importance. There is a need for economists, legal experts, and shariah scholars who would elaborate and analyze the law of zakat in a contemporary manner. Sheikh Yusuf al Qardawi's book is one of those exceptions to the above, giving one hope and reassurance to continue. First published more than 3 decades ago, *Fiqh al-Zakat* still remains unparalleled in its comprehensiveness, exposition, and depth. It is, therefore, with great pleasure that we present it to the English reading public. Shaykh Yusuf Al-Qaradawi Born in Egypt 1926. One of the most prominent scholars of the 20th century. He memorized the Quran before the age of 10. He is an expert on principles of Islamic jurisprudence (Fiqh), the Arabic language, and other Islamic Sciences. He has published over 100 books, which are bestsellers in the Islamic world. His books cover various topics, such as: Fiqh, how to understand the Sunnah, how to understand the Qur'an, a two volume book on Zakat which many scholars consider as a treasure house for the Islamic

library, environment, Fiqh of Minorities, poetry, and many other topics. Shaykh Al-Qaradawi represents an original effort to make the comprehensive rules of Islam accessible and understandable to non-specialists. He always tries to join between the principles of the religion and the problems facing Muslims today.

Acehnese-Indonesian-English Thesaurus Lontar Sūfism, the religious philosophy of Islam, is described in the oldest extant definition as 'the apprehension of divine realities,' and Mohammedan mystics are fond of calling themselves Ahl al-Haqq, 'the followers of the Real.' In attempting to set forth their central doctrines from this point of view, the author draws to some extent on materials which he has collected for a history of Islamic mysticism. This edition provides an easy approach to the study of Islamic mysticism. Apart what the general reader requires to be told at first about Sūfism; the book includes a large amount of material that will be new even to professional Orientalists. Dr. Nicholson sets before us the results of twenty years' unremitting labour, and that, too, with remarkable simplicity and clarity for such a subject; at the same time he lets the mystics mostly speak for themselves and mainly in his own fine versions from the original Arabic and Persian.

Scripting Revolution GUEPEDIA

Ibarat sebatang sungai yang sudah mengalir selama 1400 tahun lebih, bermula dari hulunya yang suci bersih-bebas dari segala kekotoran, tetapi apabila semakin sampai ke hujung muara segala sampah-sarap sepanjang sungai dibawa bersama ke muara yang kini kita sedang berada di sana. Begitu juga Islam, dari awal zaman terbaik yang terjaga ketulenan dan kesuciannya, namun selepas kewafatan Rasulullah s.a.w. pencemaran, keracunan dan kerancuan muncul sama ada dari luar atau dalam Islam sendiri menyebabkan pemahaman dan pelaksanaan Islam sama ada dalam urusan 'aqīdah, 'ibādah dan mu'āmalah semakin jauh dari sifat tulennya yang suci murni. Naskhah ini menghujahkan - antara punca kerancuan pemikiran beragama

orang Islam-Melayu-Nusantara ada pada fakta sejarah awal perkembangan Islam dan tradisi penulisan karya-karya berkaitan Islam di Alam Melayu. Ia bermula daripada metodologi penulisan Sastera Hikayat Berunsur Islam, Sastera Kitab, Sastera Ketatanegaraan dan seumpama dengannya pasca Islam berkembang di Nusantara. Ini adalah kerana penulisan karya-karya tersebut tidak menjadikan disiplin yang sudah digarispandukan oleh para ulama Islam sejurus kewafatan Rasulullah s.a.w. sebagai metodologi penyebaran maklumat berkaitan Islam. Ringkasnya, proses tersebut tidak melalui kerangka dan disiplin ilmu Riwāyah dan Dirāyah. Ini menyebabkan semenjak Islam menapak di Alam Melayu sehingga saat ini, riwayat Isrā'īlyyāt, Ḥadīth Mawḍū', dan Fitnah Sīrah yang ditularkan buat sekian lama masih subur malah dianggap Ṣaḥīḥ oleh sebahagian besar umat ini!

The "Arab Spring" was heralded and publicly embraced by foreign leaders of many countries that define themselves by their own historic revolutions. The contributors to this volume examine the legitimacy of these comparisons by exploring whether or not all modern revolutions follow a pattern or script. Traditionally, historians have studied revolutions as distinct and separate events. Drawing on close familiarity with many different cultures, languages, and historical transitions, this anthology presents the first cohesive historical approach to the comparative study of revolutions. This volume argues that the American and French

Revolutions provided the genesis of the revolutionary "script" that was rewritten by Marx, which was revised by Lenin and the Bolshevik Revolution, which was revised again by Mao and the Chinese Communist Revolution. Later revolutions in Cuba and Iran improvised further. This script is once again on display in the capitals of the Middle East and North Africa, and it will serve as the model for future revolutionary movements.
