Run and Hide Hurst

This book draws on extensive fieldwork among Muslims in Nepal to examine the local and global factors that shape contemporary Muslim identity and the emerging Islamic revival movement based in the Kathmandu valley. Nepal's Muslims are active participants in the larger global movement of Sunni revival as well as in Nepal's own local politics of representation. The book traces how these

two worlds are lived and brought together in the context of Nepal's transition to secularism, and explores Muslim struggles for self-definition and belonging against a backdrop of historical marginalization and an unprecedented episode of anti-Muslim violence in 2004. Through the voices and experiences of Muslims themselves, the book examines Nepal's most influential Islamic organizations for what they reveal about contemporary movements of revival among religious minorities on the margins--both geographic and social--of the so-called Islamic world. It reveals that Islamic revival is both a complex response to the

challenges faced by modern minority communities in this historically Hindu kingdom and a movement to cultivate new modes of thought and piety among Nepal's Muslims.

The book addresses issues related to the education of ethnic minority individuals in the multilingual Asian region. It features recent research and practices of scholars aiming to rethink educational policy and practice surrounding the education of ethnic minority students with a variety of language scenarios in Hong Kong and other Asian contexts. It documents how ethnicity and inequality are played out at policy, school, and individual levels, and how these affect the education of ethnic minorities in their host societies. Using a range of methods, from surveys to interviews and document analysis, this book describes the links between language, identity and educational inequality related to ethnic minorities in Asian contexts.

A common man's journey... YOUR ROAD MAP TO ACHIEVING FINANCIAL FREEDOM AND LIVING YOUR DREAMS Financial freedom is not defined by your net worth or your social status. It does not matter how much you earn – what matters is how much you can save and invest wisely. The secret to financial freedom is learning the basic concepts of planning well and adopting the right attitude. But how does one achieve this? Written by a common man for the common man, this book will help you lead a financially independent and conscious life. Everyone around us is trapped in a mindless rat race. If you've resolved to take control of your finances and construct a personal finance plan, From the Rat Race to Financial Freedom is a good starting point.

Battles of the New Republic: A Contemporary History of Nepal is a story of Nepal's transformation from war to peace, monarchy to republic, a Hindu kingdom to a secular state, and a unitary to a potentially federal state. Part-reportage, part-history, part-analysis, part-memoir, and part-biography of the key characters, the book breaks new ground in political writing from the region. With access to the most powerful leaders in the country as well as diplomats, it gives an unprecedented glimpse into Kathmandu's high politics. But this is coupled with ground-level reportage on the lives of ordinary citizens of the hills and the plains, striving for a democratic, just and

equitable society. It tracks the hard grind of political negotiations at the heart of the instability in Nepal. It traces the rise of a popular rebellion, its integration into the mainstream, and its steady decline. It investigates Nepal's status as a partly-sovereign country, and reveals India's overwhelming role. It examines the angst of having to prove one's loyalties to one's own country, and exposes the Hindu hill upper-caste dominated power structures. *Battles of the New Republic* is a story of the deepening of democracy, of the death of a dream, and of that fundamental political dilemma - who exercises power, to what end, and for whose benefit.

Rupi birthed her eldest son squatting in the middle of a paddy field, shin-deep in mud and slush. Soon after, Gurubari, her rival in love, gave her an illness that was like the alakjari vine which engulfs the tallest, greenest trees of the forest and sucks their hearts out. Now Rupi, once the strongest woman in her village, lives out her days on a cot in the backyard, and her life dissolves into incomprehensible ruin

around her. *The Mysterious Ailment of Rupi Baskey* is the story of the Baskeys the patriarch Somai; his alcoholic, irrepressible daughter Putki; Khorda, Putki's devout, upright husband, and their sons Sido and Doso; and Sido's wife Rupi. Equally, the novel is about Kadamdihi, the Santhal village in Jharkhand in which the Baskeys live. For it is in full view of the village that the various large and small dramas of the Baskeys's lives play out, even as the village cheers them on, finds fault with them, prays for them and, most of all, enjoys the spectacle they provide. An astonishingly assured and original debut, *The Mysterious Ailment of Rupi Baskey* brings to vivid life a village, its people, and the gods good and bad who influence them. Through their intersecting lives, it explores the age-old notions of good and evil and the murky ways in which the heart and the mind work.

The blind matriarch, Matangi-Ma, lives on the topmost floor of an old house with many stories. From her eyrie, she hovers unseeingly over the lives of her family. Her

long-time companion Lali is her emissary to the world. Her three children are by turn overprotective and dismissive of her. Her grandchildren are coming to terms with old secrets and growing pains. Life goes on this way until one day the world comes to a standstill-and they all begin to look inward. This assured novel records the different registers in the complex inner life of an extended family. Like the nation itself, the strict hierarchy of the joint-family home can be dysfunctional, and yet it is this home that often provides unexpected relief and succour to the vulnerable within its walls. As certainties dissolve, endings lead to new beginnings. Structured with the warp of memory and the weft of conjoined lives, the narrative follows middle India, even as it records the struggles for individual growth, with successive generations trying to break out of the stranglehold of the all-encompassing Indian family. Ebbing and flowing like the waves of a pandemic, the novel is a clear-eyed chronicle of the tragedies of India's encounter with the Coronavirus, the cynicism and despair that accompanied it, and the resilience and strength of the human spirit.

Thangmi Identities Between Nepal and India Routledge

"Pankaj Mishra transforms a visceral, intimate story of one man's humble origins into a kaleidoscopic portrait of a society bedazzled by power and wealth—what it means on a human level, and what it costs. *Run and Hide* is a spectacular, illuminating work of fiction." —Jennifer Egan, author of *Manhattan Beach* Growing up in a small railway town, Arun always dreamed of escape. His acceptance to the prestigious Indian Institute of Technology, enabled through great sacrifice by his low-caste parents, is seemingly his golden ticket out of a life plagued by everyday cruelties and deprivations. At the predominantly male campus, he meets two students from similar backgrounds.

Unlike Arun—scarred by his childhood, and an uneasy interloper among go-getters—they possess the sheer will and confidence to break through merciless social barriers. The alumni of IIT eventually go on to become the financial wizards of their generation, working hard and playing hard from East Hampton to Tuscany—the beneficiaries of unprecedented financial and sexual freedom. But while his friends play out Gatsby-style fantasies, Arun fails to leverage his elite education for social capital. He decides to pursue the writerly life, retreating to a small village in the Himalayas with his aging mother. Arun's modest idyll is one day disrupted by the arrival of a young woman named Alia, who is writing an exposé of his former classmates. Alia, beautiful and sophisticated, draws Arun back to the prospering world where he must be someone else if he is to belong. When he is implicated in a terrible act of violence committed by his closest friend from IIT, Arun will have to reckon with the person he has become. *Run and Hide* is Pankaj Mishra's powerful story of achieving material progress at great moral and emotional cost. It is also the story of a

changing country and global order, and the inequities of class and gender that map onto our most intimate relationships.

Data Mining for Business Analytics: Concepts, Techniques, and Applications in Python presents an applied approach to data mining concepts and methods, using Python software for illustration. Readers will learn how to implement a variety of popular data mining algorithms in Python (a free and open-source software) to tackle business problems and opportunities. This is the sixth version of this successful text, and the first using Python. It covers both statistical and machine learning algorithms for prediction, classification, visualization, dimension reduction, recommender systems, clustering, text mining and network analysis. It also includes: A new co-author, Peter Gedeck, who brings both experience teaching business analytics

courses using Python, and expertise in the application of machine learning methods to the drug-discovery process. A new section on ethical issues in data mining. Updates and new material based on feedback from instructors teaching MBA, undergraduate, diploma and executive courses, and from their students. More than a dozen case studies demonstrating applications for the data mining techniques described. End-of-chapter exercises that help readers gauge and expand their comprehension and competency of the material presented. A companion website with more than two dozen data sets, and instructor materials including exercise solutions, PowerPoint slides, and case solutions. **Data Mining for Business Analytics: Concepts, Techniques, and Applications in Python** is an ideal textbook for graduate and upper-undergraduate level courses in data mining, predictive analytics, and business analytics. This new edition is also an excellent reference for analysts, researchers, and practitioners working with quantitative methods in the fields of business, finance, marketing, computer science, and information technology. "This

book has by far the most comprehensive review of business analytics methods that I have ever seen, covering everything from classical approaches such as linear and logistic regression, through to modern methods like neural networks, bagging and boosting, and even much more business specific procedures such as social network analysis and text mining. If not the bible, it is at the least a definitive manual on the subject." —Gareth M. James, University of Southern California and co-author (with Witten, Hastie and Tibshirani) of the best-selling book **An Introduction to Statistical Learning, with Applications in R**

The Map of Potential Vegetation of Nepal Farrar, Straus and Giroux

"Nepal has the third highest rate of child marriage in Asia, with 37 percent of girls marrying before age 18, and 10 percent marrying before the age of 15, despite the fact that the minimum age of marriage is 20 under Nepal law. This report is based on 149 interviews conducted across Nepal, most with married girls and young women who married as girls. It describes the devastating effects of child marriage, including denial of access to education,

serious health consequences of early pregnancy, and domestic abuse. A complex web of factors drives these child marriages, including poverty, lack of access to education, child labor, social pressures, and harmful practices. Cutting across all of these is entrenched gender inequality, and damaging social norms that make girls less valued than boys in Nepali society. In July 2014, Nepal's government pledged to end child marriage by 2020. By 2016, this goal has shifted to ending child marriage by 2030. But the government has yet to take the concrete steps needed to achieve either goal. The report calls on Nepal to release a comprehensive plan to combat child marriage, and seeks to support that process with recommendations drawn directly from the experiences of the married children who continue to be deeply harmed by this practice"--Page [4] of cover.

Palpasa Café tells the story of an artist, Drishya, during the height of the Nepalese

Civil War. The novel is partly a love story of Drishya and the first generation American Nepali, Palpasa, who has

returned to the land of her parents after 9/11. It is often called an anti-war novel,

and describes the effects of the civil war on the Nepali countryside that Drishya travels to.
