The book attempts to study the Congress Forum for Socialist Action as a pressure group within the Congress party between mid 1962 and early 1973. It has also touched upon the revival of the CFSA in 1977 and 1987. Explaining how non-implementation of party policies and programmes, authoritative attitude of the party elite towards the rank and file, and the emergence of ideological differences among them led to the formation of the pressure group. The structure, process and functions of the pressure group have also been analysed. The forum reiterated its faith in defining the concept of socialism, its basic objective being to emphasize the establishment of socialistic society in the country. The forum achieved a good success as far as controlling monopolistic tendencies and expansion of public enterprise were concerned.

The beloved debut novel about an affluent Indian family forever changed by one fateful day in 1969, from the author of The Ministry of Utmost Happiness NEW YORK TIMES BESTSELLER • MAN BOOKER PRIZE WINNER Compared favorably to the works of Faulkner and Dickens, Arundhati Roy's modern classic is equal parts powerful family saga, forbidden love story, and piercing political drama. The seven-year-old twins Estha and Rahel see their world shaken irrevocably by the arrival of their beautiful young cousin, Sophie. It is an event that will lead to an illicit liaison and tragedies accidental and intentional, exposing "big things [that] lurk unsaid" in a country drifting dangerously toward unrest. Lush, lyrical, and unnerving, *The God of Small Things* is an award-winning landmark that started for its author an esteemed career of fiction and political commentary that continues unabated.

Indian Film Stars offers original insights and important reappraisals of film stardom in India from the early talkie era of the 1930s to the contemporary period of global blockbusters. The collection represents a substantial intervention to our understanding of the development of film star cultures in India during the 20th and 21st centuries. The contributors seek to inspire and inform further

inquiries into the histories of film stardom-the industrial construction and promotion of star personalities, the actual labouring and imagined lifestyles of professional stars, the stars' relationship to specific aesthetic cinematic conventions (such as frontality and song-dance) and production technologies (such as the play-back system and post-synchronization), and audiences' investment in and devotion to specific star bodies-across the country's multiple centres of film production and across the overlapping (and increasingly international) zones of the films' distribution and reception. The star images, star bodies and star careers discussed are examined in relation to a wide range of issues, including the negotiation and contestation of tradition and modernity, the embodiment and articulation of both Indian and non-Indian values and vogues; the representation of gender and sexuality, of race and ethnicity, and of cosmopolitan mobility and transnational migration; innovations and conventions in performance style; the construction and transformation of public persona; the star's association with film studios and the mainstream media; the star's relationship with historical, political and cultural change and memory; and the star's meaning and value for specific (including marginalised) sectors of the audience.

The extended critical interview is especially flexible as a form, by turns tenacious and glancing, elliptical or sustained, combining argument and counter-argument, reflection, history and memoir with a freedom normally denied to its subjects in conventional writing formats. *Lives on the Left* brings together sixteen such interviews from *New Left Review* in a group portrait of intellectual engagement in the twentieth century and since. Four generations of intellectuals discuss their political histories and present perspectives, and the specialized work for which they are, often, best known. Their recollections span the century from the Great War and the October Revolution to the present, ranging across Europe, the Americas, Africa and Asia. Psychoanalysis, philosophy, the gendering of private and public life, capital and class formation, the novel, geography, and language are among the topics of theoretical discussion. At the heart of the collection, in all its diversity of testimony and judgement, is critical experience of communism and the tradition of Marx, relayed now for a new generation of readers. *Lives on the Left* includes interviews with Georg Lukács, Hedda Korsch, Jean-Paul Sartre, Dorothy Thompson, Jiří Pelikan, Ernest Mandel, Luciana Castellina, Lucio Colletti, K. Damodaran, Noam Chomsky, David Harvey, Adolfo Gilly, João Pedro Stédile, Asada Akira, Wang Hui and Giovanni Arrighi. *New Left Review* was founded in 1960 in London, which has remained its base ever since. In fifty years of publication, it has won an international reputation as an independent journal of socialist politics and ideas, attracting readers and contributors from every part of the world. A Spanish-language edition is published bi-monthly from Madrid.

#1 NEW YORK TIMES BESTSELLER • Barack Obama's lucid vision of America's place in the world and call for a new kind of politics that builds upon our shared understandings as Americans, based on his

years in the Senate “In our lowdown, dispiriting era, Obama’s talent for proposing humane, sensible solutions with uplifting, elegant prose does fill one with hope.”—Michael Kazin, *The Washington Post*

In July 2004, four years before his presidency, Barack Obama electrified the Democratic National Convention with an address that spoke to Americans across the political spectrum. One phrase in particular anchored itself in listeners’ minds, a reminder that for all the discord and struggle to be found in our history as a nation, we have always been guided by a dogged optimism in the future, or what Obama called “the audacity of hope.” *The Audacity of Hope* is Barack Obama’s call for a different brand of politics—a politics for those weary of bitter partisanship and alienated by the “endless clash of armies” we see in congress and on the campaign trail; a politics rooted in the faith, inclusiveness, and nobility of spirit at the heart of “our improbable experiment in democracy.” He explores those forces—from the fear of losing to the perpetual need to raise money to the power of the media—that can stifle even the best-intentioned politician. He also writes, with surprising intimacy and self-deprecating humor, about settling in as a senator, seeking to balance the demands of public service and family life, and his own deepening religious commitment. At the heart of this book is Barack Obama’s vision of how we can move beyond our divisions to tackle concrete problems. He examines the growing economic insecurity of American families, the racial and religious tensions within the body politic, and the transnational threats—from terrorism to pandemic—that gather beyond our shores. And he grapples with the role that faith plays in a democracy—where it is vital and where it must never intrude. Underlying his stories is a vigorous search for connection: the foundation for a radically hopeful political consensus. Only by returning to the principles that gave birth to our Constitution, Obama says, can Americans repair a political process that is broken, and restore to working order a government that has fallen dangerously out of touch with millions of ordinary Americans. Those Americans are out there, he writes—“waiting for Republicans and Democrats to catch up with them.”

Liberalization’s Children explores how youth and gender have become crucial sites for a contested cultural politics of globalization in India. Popular discourses draw a contrast between “midnight’s children,” who were rooted in post-independence Nehruvian developmentalism, and “liberalization’s children,” who are global in outlook and unapologetically consumerist. Moral panics about beauty pageants and the celebration of St. Valentine’s Day reflect ambivalence about the impact of an expanding commodity culture, especially on young women. By simply highlighting the triumph of consumerism, such discourses obscure more than they reveal. Through a careful analysis of “consumer citizenship,” Ritty A. Lukose argues that the breakdown of the Nehruvian vision connects with ongoing struggles over the meanings of public life and the cultural politics of belonging. Those struggles play out in the ascendancy of Hindu nationalism; reconfigurations of youthful, middle-class femininity; attempts by the middle class to alter understandings of citizenship; and assertions of new forms of masculinity by members of lower castes. Moving beyond elite figurations of globalizing Indian youth, Lukose draws on ethnographic research to examine how non-elite college students in the southern state of Kerala mediate region, nation, and globe. Kerala sits at the crossroads of development and globalization. Held up as a model of left-inspired development, it has also been transformed through an extensive and largely non-elite transnational circulation of labor, money, and commodities to the Persian Gulf and elsewhere. Focusing on fashion, romance, student politics, and education, Lukose carefully tracks how gender, caste, and class, as well as colonial and postcolonial legacies of culture and power, affect how students navigate their roles as citizens and consumers. She explores how mass-mediation and an expanding commodity culture have differentially incorporated young people into the structures and aspirational logics of globalization.

Part I Refining India! Brutalising England Part II What is repulsive about Indians? Part III Asian languages and friendship; and other things QUOTE: One of the major observations was the satanic nature of the Indian social arrangement and of social communication. Communication was absolutely different from English. In fact, in the Indian languages, human beings appeared in a variety, shaded by differing diabolic features. The main reason for this was the feudal content in the languages. All Indian languages have this feature, but the codes may slightly differ, as one move from North Indian

languages to South Indian languages END OF QUOTE

Usually biographies are written posthumously. Of course, there are exceptions when the person concerned is so important: people who have made a mark in society, people whose impact on society was so great that a societal transformation has resulted from their activities, or their life and work has changed the way people live and think. We have Gandhiji, Nehru and a host of other great people whose stories were written not by one but by many when they were alive..

A comprehensive analysis on the rise, assertion and dominance of the New Hindu Right forces in civil society From its forgettable electoral performance of 1984 to its historical victory in 2014, the Bharatiya Janata Party’s (BJP) story has been fodder for many political and academic debates. In this book, the authors show how the Hindu Right uses security, both external and internal, as a strategy for political mobilisation and eventual electoral success. It further explains the organisational and ideological penetration of the Sangh Parivar into the civil domain through strategies of securitisation. Deriving data from original sources, writings of leaders and their autobiographies, speeches, government documents, reports, pamphlets and manifestos of various Hindutva organisations, the work follows the growth of the Hindu Right forces and its trajectory over the years, taking a close look into its philosophical settings and political strategies. The book assumes significance in light of the massive electoral success of BJP in the 2014 elections.
