 This book on NDA/NA deals with the whole gamut of General Knowledge and English that an aspirant requires to prepare for National Defence Academy/Naval Academy and other exams held by UPSC. As it contains detailed notes on Indian History, Geography and Indian Polity followed by MCQs that have appeared in various competitive exams, it would prove to be very useful for other competitive exams as well. Besides notes on subjects mentioned above, it has over 7000 Multiple Choice Questions (MCQs) on subjects/topics specified by UPSC in the syllabus of NDA/NA. This book on 'General Knowledge & English' has been written after lot of research. It contains MCQs that have appeared in previous 20 years question papers of NDA/ Naval Academy and other competitive exams. The detailed notes on History, Geography and Indian Polity with MCQs and MCQs on Indian Economy, Indian Culture, Environment, General Science and Defence & Para Military Forces make it a very useful for all competitive Exams held by UPSC. In addition, in the English Chapter, besides 16 solved question papers of English of NDA, Parts of Speech, Direct - Indirect, Active & Passive Voice, Antonyms, Synonyms, One Word and Idioms & Phrases that have appeared in various exams, have also been included. "Most have wished to be winners in life, but very few had the will to prepare for it, BE A WINNER FOR LIFE!"
Science & Technology for General Studies CSAT - Paper 1 IAS Prelims 2nd Edition Concept Publishing Company
 The first of the topics in the revision series for the IBDP Computer Science Syllabus.
The General Science Compendium for IAS Prelims General Studies Paper 1 & State PSC Exams 2nd Edition Springer Nature
 This book explores recent breakthroughs and developments across cutting-edge fields of science and technology. From polymer composites to global warming, biodiversity loss to nanotechnology, the chapters provide authoritative insights into some of today's most pressing issues and promising solutions. Key topics covered include: Properties and applications of polymer composites in construction, aerospace, and other industries Causes and consequences of glacial melting and the urgent need to address climate change Drivers of the accelerating biodiversity crisis and pathways for conservation Emerging possibilities enabled by modern scientific and technological innovations Advances in biomass energy as a renewable alternative to fossil fuels Use of nanomaterials for

environmental remediation and removing contaminants Biomedical applications of cellulose nanofibrils in areas like tissue engineering and drug delivery Written by leading international researchers and experts, this volume showcases interdisciplinary contemporary advances in science and technology. It explores how researchers are leveraging innovations to meet human needs and build a sustainable future. Contemporary Advances in Science & Technology, Volume VI will appeal to anyone seeking an accessible overview of key developments in these vital and rapidly evolving fields.

INDIA UPCOMING SUPERPOWER Springer Nature

The book addresses the challenges in designing blockchain-based secured solutions for Industry 4.0 applications using artificial intelligence. It further provides a comparative analysis of various advanced security approaches such as edge computing, cybersecurity, and cloud computing in the realm of information technology. This book:

- Address the challenges in designing blockchain-based secured solutions for Industry 4.0 applications using artificial intelligence
- Provides a comparative analysis of various advanced security approaches such as edge computing, cybersecurity, and cloud computing in the realm of information technology
- Discusses the evolution of blockchain and artificial intelligence technology, from fundamental theories to practical aspects
- Illustrates the most recent research solutions that handle the security and privacy threats while considering the resource-constrained in Industry 4.0 devices
- Showcases the methods and tools necessary for intelligent data analysis and gives solutions to problems resulting from automated data collection

 The text aims to fill the gap between the theories of blockchain and its practical application in business, government, and defense among other areas. It further highlights the challenges associated with the use of blockchain for various industry 4.0 applications such as data analytics, software-defined networks, cyber-physical systems, drones, and cybersecurity. The text is primarily written for senior undergraduate, graduate students, and academic researchers in the fields of electrical engineering, electronics and communication engineering, computer engineering, manufacturing engineering, and industrial engineering.

S. Chand's Computer Science for Class 11 Chandresh Agrawal

This book includes a collection of peer-reviewed best selected research papers presented at the Third International Conference on Advances in Distributed Computing and Machine Learning (ICADCML 2022), organized by Department of Computer Science and Engineering, National Institute of Technology, Warangal, Telangana, India, during 15-16 January 2022. This book presents recent innovations in the field of scalable distributed systems in addition to cutting edge research in the field of Internet of Things (IoT) and blockchain in distributed environments.

Mechanism and Machine Science Oswaal Books and Learning Private Limited

The Routledge Handbook of Feminist Philosophy of Science is a comprehensive resource for feminist thinking about and in the sciences. Its 33 chapters were written exclusively for this Handbook by a group of leading international philosophers as well as scholars in gender studies, women's studies, psychology, economics, and political science. The chapters of the Handbook are organized into four main parts: I. Hidden Figures and Historical Critique II. Theoretical Frameworks III. Key Concepts and Issues IV. Feminist Philosophy of Science in Practice. The chapters in this extensive, fourth part examine the relevance of feminist philosophical thought for a range of scientific and professional disciplines, including biology and biomedical sciences; psychology, cognitive science, and

neuroscience; the social sciences; physics; and public policy. The Handbook gives a snapshot of the current state of feminist philosophy of science, allowing students and other newcomers to get up to speed quickly in the subfield and providing a handy reference for many different kinds of researchers.

APS-Army Public School PGT Computer Science Exam Springer Science & Business Media
Science & Tech General Studies CSAT - Paper 1 IAS Prelims for Civil Services Preliminary Exam covers various Chapters and their important topics. The book is divided into 17 chapters followed by 2 levels of exercises - Simple MCQs & statement based MCQs. The book captures most of the important questions with explanations of the past 12 years of the IAS Prelim exam distributed in the various chapters.

Oswaal NTA CUET (UG) Question Bank Quantitative Aptitude, General Awareness & Logical Reasoning (Set of 3 Books) (Entrance Exam Preparation Book 2023) New Saraswati House India Pvt Ltd

Competition Science Vision (monthly magazine) is published by Pratiyogita Darpan Group in India and is one of the best Science monthly magazines available for medical entrance examination students in India. Well-qualified professionals of Physics, Chemistry, Zoology and Botany make contributions to this magazine and craft it with focus on providing complete and to-the-point study material for aspiring candidates. The magazine covers General Knowledge, Science and Technology news, Interviews of toppers of examinations, study material of Physics, Chemistry, Zoology and Botany with model papers, reasoning test questions, facts, quiz contest, general awareness and mental ability test in every monthly issue.

[ISRO Exam PDF-ISRO Technical Assistant \(Computer Science\) Exam Computer Science Engineering Subject PDF eBook](#) Springer

This book constitutes the refereed proceedings of the First International Conference on Pattern Recognition and Machine Intelligence, PReMI 2005, held in Kolkata, India in December 2005. The 108 revised papers presented together with 6 keynote talks and 14 invited papers were carefully reviewed and selected from 250 submissions. The papers are organized in topical sections on clustering, feature selection and learning, classification, neural networks and applications, fuzzy logic and applications, optimization and representation, image processing and analysis, video processing and computer vision, image retrieval and data mining, bioinformatics application, Web intelligence and genetic algorithms, as well as rough sets, case-based reasoning and knowledge discovery.

A Methodology for the Selection of Interactive Computer Services Oswaal Books

The UPPCS (J) PYP E-Book contains all the important questions from the previous year's papers. Candidates can get questions from all imp. sections like General Awareness etc from 16 Oct 2016 exam

Competition Science Vision (monthly magazine) is published by Pratiyogita Darpan Group in India

and is one of the best Science monthly magazines available for medical entrance examination students in India. Well-qualified professionals of Physics, Chemistry, Zoology and Botany make contributions to this magazine and craft it with focus on providing complete and to-the-point study material for aspiring candidates. The magazine covers General Knowledge, Science and Technology news, Interviews of toppers of examinations, study material of Physics, Chemistry, Zoology and Botany with model papers, reasoning test questions, facts, quiz contest, general awareness and mental ability test in every monthly issue.

Competition Science Vision Shashwat Publication

This three-volume set (CCIS 1367-1368) constitutes the refereed proceedings of the 5th International Conference on Computer Vision and Image Processing, CVIP 2020, held in Prayagraj, India, in December 2020. Due to the COVID-19 pandemic the conference was partially held online.

The 134 papers were carefully reviewed and selected from 352 submissions. The papers present recent research on such topics as biometrics, forensics, content protection, image enhancement/super-resolution/restoration, motion and tracking, image or video retrieval, image, image/video processing for autonomous vehicles, video scene understanding, human-computer interaction, document image analysis, face, iris, emotion, sign language and gesture recognition, 3D image/video processing, action and event detection/recognition, medical image and video analysis, vision-based human GAIT analysis, remote sensing, and more.

[Oswaal NTA CUET \(UG\) | Question Bank Chapterwise & Topicwise General Awareness \(2024\)](#) CRC Press

This book gathers state-of-the-art research in computational engineering and bioengineering to facilitate knowledge exchange between various scientific communities. Computational engineering (CE) is a relatively new discipline that addresses the development and application of computational models and simulations often coupled with high-performance computing to solve complex physical problems arising in engineering analysis and design in the context of natural phenomena. Bioengineering (BE) is an important aspect of computational biology, which aims to develop and use efficient algorithms, data structures, and visualization and communication tools to model biological systems. Today, engineering approaches are essential for biologists, enabling them to analyse complex physiological processes, as well as for the pharmaceutical industry to support drug discovery and development programmes.
